### Revision 4.3 – Stay Tuned For Additional Updates

This document has been delivered to the Director of the FBI, The Attorney General, The heads of the FTC, FEC, GAO, SEC and Congress. EVERYBODY, including every voter, now has this information so that no agency can say “*they didn't know*” these facts”.

## **Elon Musk, his lawyers, CPA's and Goldman Sach's insiders were hacked.**

It is widely verified by the U.S. DOJ, The FBI, The CIA and InterPol that hackers such as Wang Dong, Sun Kailiang, Wen Xinyu, Huang Zhenyu, and Gu Chunhui, who were officers in Unit 61398 of the Third Department of the Chinese People's Liberation Army (PLA) who waltzed through corporate servers with ease.

Aleksei Sergeyevich Morenets, 41, Evgenii Mikhaylovich, Serebriakov, 37, Ivan Sergeyevich Yermakov, 32, Artem Andreyevich Malyshev, 30, and Dmitriy Sergeyevich Badin, 27, who were each assigned to Military Unit 26165, and Oleg Mikhaylovich Sotnikov, 46, and Alexey Valerevich Minin, 46, who were also GRU officers, also raged through corporate servers with impunity.

Hackers-for-hire including Kevin David Mitnick, Adrian Lamo, Albert Gonzalez, Matthew Bevan, Richard Pryce, Jeanson James Ancheta, Michael Calce, Kevin Poulsen, Jonathan James, The hacker known as ASTRA, The hacker known as GUCIFER, The hacker known as ANON 4CHAN and THOUSANDS of other individuals had free access and free reign throughout every corporate and email server and every government server via the SPECTRE, EMOTET, PRIME ROOTKIT, SERCOMM BACKDOOR, NOTPETYA, SOLARWINDS "DOORS", MELTDOWN, MASTERKEY, RYZENFALL, FALLOUT, CHIMERA, hacking tools. They used hundreds of back doors and penetration vulnerabilities in Cisco, Intel, Juniper Networks, AMD, and other equipment. Those vulnerabilities still exist today because CFO's refuse to replace all of the network equipment because it would "require too much paper-work".

Additionally, all of the core server penetration tools used by Fire-Eye Security, the CIA and the NSA were hacked by foreign nations and their core source code posted on the internet for all to use.

Because Elon Musk is such a narcissistic self-promoting maniac, Musk drew the attention of every hacker in the world. Elon Musk, Tesla Motors, SpaceX and Musk's ex-wives, girlfriends, hookers, lawyers, CPA's, investment bankers and Palo Alto buddies have been deeply and pervasively hacked.

The hackers have begun posting Elon Musk's dirty secrets on the internet. Tens of millions of pages of emails, financial records, covert political financing documents, safety cover-ups, Palo Alto venture capital collusion, and other interesting bits, have started showing up.

Additionally, a huge number of fraud, abuse, negligence and racketeering lawsuits have been filed against Elon Musk and his dirty little empire. Those records are easily found in court records and on [www.pacer.gov](http://www.pacer.gov).

When you peek behind the curtain in the magical fantasy technology world of Elon Musk you find that the entire emerald utopia is built out of bribes, payola and crony tech Illuminati stock market manipulations. Elon Musk's 'wizardry' is 20% other people's stolen technologies and 80% bullshit! He

Page 5 - EXHIBIT 93 – Case # 22-cv-1107-TSH, Norcal 9th District

has purchased his internet PR facade with billions of dollars of the taxpayer's cash and keeps his self aggrandizing front going with extensive contracted off-shore troll farms and stock market "flash boy" algorithm computer hype engines. His cars and rockets blow-up. His brain chip comes with the torture death of hundreds of helpless animals. All of "his technologies" were stolen from the original inventors. His existence is based on government money mooching and political quid pro quo stock market bribes to Senators, White House executives and Energy Department staff.

Any tech person could do every single thing that Elon Musk has done with ONE THIRD LESS cash than Elon Musk has plowed through. So where does the rest of the money go? ***It goes to political candidates in ILLEGAL quid pro quo money laundering Dark Money conduits!*** Musk's operation pays bribes to law enforcement insiders, regulatory insiders, Senators and the White House in order to keep him from getting arrested.

The biggest icon of America's failure of the Justice system is the fact that Elon Musk is not in federal prison.

### **A Question for Tesla’s Board: What Was Elon Musk’s Mental State?**

By [James B. Stewart](#)

Mr. Musk’s [tweet last week](#) — expressing his intent to take Tesla private and declaring that he had “funding secured” for the multibillion-dollar transaction — was so impulsive, potentially inaccurate, poorly worded and thought out, and with such potentially dire consequences for himself, Tesla and its shareholders, that the board now must ask a sensitive but vital question: What was Mr. Musk’s state of mind when he wrote it?

“What does this say about the judgment of the person who set all this in motion?” said Charles M. Elson, director of the Weinberg Center for Corporate Governance at the University of Delaware. “That’s what the board has to find out.”

**Elon Musk needs to recognize his limitations and bring in a strong No. 2 to help run Tesla: Analysts**

[Tesla](#) co-founder and CEO [Elon Musk](#) must recognize he can't do it all and agree to bring in a strong No. 2 to run day-to-day operations at the electric automaker, leading analysts told CNBC on Tuesday.

"We think he's going through a founder's dilemma. He's clearly stretched too thin," Consumer Edge Research analyst James Albertine said on ["Squawk Box."](#) "I think this is Elon going through personal issues, having his own struggles with the bears, very publicly."

Musk had been acting acting erratically for months even before his [take-private tweet two weeks ago](#), which raised concerns among investors and regulators in Washington.

In May, Musk rudely cut off analysts on Tesla's first-quarter earnings call, [something he apologized for](#) on the second-quarter call earlier this month. He was also launching tweetstorm after tweetstorm all summer long as he was dealing with major production problems for the automaker's new, less expensive sedan, the Model 3.

The board needs to bring in a chief operating officer or co-CEO to take some of the pressures off of Musk and allow him to concentrate on being a "brilliant leader as a visionary," contended Albertine, who on Tuesday downgraded Tesla stock to equal weight and reduced his 12-month price target to \$311 per share from \$385.

Shares of Tesla broke a four-session, 14 percent losing streak on Monday, and the stock was logging a strong advance in early Tuesday trading.

**After Elon Musk's 'Pedo' Tweet, Tesla Shares Fall 4% as Some Investors Worry About His Erratic Behavior**

By KEVIN KELLEHER

Tesla's stock lost 4% of its value Monday following a rough weekend for its CEO Elon Musk.

Musk, who has taken to Twitter in recent weeks to combat his critics, drew criticism this weekend after calling a diver involved in the rescue of a Thai soccer team a "pedo." The diver, Vern Unsworth, had criticized Musk's effort to create a small submarine to rescue the soccer team members.

Thai rescuers succeeded in bringing the soccer team to safety without enlisting Musk's help. Unsworth dismissed it as a PR stunt, telling Musk he could "stick his submarine where it hurts." Musk then lashed back in a now deleted tweet that seemed to hint, by virtue of the British diver's residence in Thailand, that he was a pedophile.

Page 9 - EXHIBIT 93 – Case # 22-cv-1107-TSH, Norcal 9th District

Unsworth has said he is considering legal action against Musk, while Tesla investors wasted no time in expressing their concerns about the CEO's erratic behavior. Tesla slid 2.8% during official market hours Monday, before declining more than 1% in after-hours trading.

Among the more recent 'failures': parts of the Tesla Model 3 were being made by hand, contributing to a shortage of vehicles ready for delivery

Going through a rough patch at work? Well, at least you probably didn't get ousted as CEO of your own company, watch two of your companies hover on the brink of bankruptcy or get fired while on your honeymoon.

All of those things have happened at various points to Elon Musk, founder of SpaceX, co-founder of Tesla TSLA, -0.33% , founder of Neuralink, co-founder of SolarCity and co-founder of X.com which eventually became PayPal , and who now has a net worth of about \$15 billion.

Musk's impressive resume is littered with accomplishments, but it's worth remembering it's not all sunbeams and soaring stock prices.

**Sorry, But Tesla's Cool Electric Cars Can't Compete As Long As Fracking Exists**

If you were among the brave few who bought a Tesla Roadster in 2008, you purchased your government-subsidized \$100,000-plus electric car when a barrel of oil cost as much as \$162 in today's dollars. "Peak oil" was an article of faith — as crude supplies ran out, ever-higher oil prices would destroy demand for the internal combustion engine and other fossil-fuel monstrosities. But now, if you're one of the 500,000 wannabe Tesla owners who, according to CEO Elon Musk, has put down a \$1,000 deposit on a \$35,000 Model 3, the company's new mass-market electric sedan, you're probably just as familiar with a fashionable new green conceit. Now the article of faith is "peak demand" for oil, the idea that electric cars will soon make oil obsolete.

Any time Elon Musk makes a mistake, it does not come cheap.

That could not be more true when it comes to SpaceX, the aeronautics company he runs. On Thursday, Musk shared a video highlighting what happens when you fail to land an orbital rocket booster.

And it is spectacular.

“Long road to reusability of Falcon 9 primary boost stage...When upper stage & fairing also reusable, costs will drop by a factor >100,” wrote Musk.

The video consists of a lowlight reel of SpaceX, featuring a lot of rockets blowing up with captions like “Rocket is fine? It’s just a scratch.”

# Elon Musk is a techno-criminal and master stock market manipulator

- Elon Musk's command and control of the crimes and corruption is easy to prove in court

"Musk buys media hype about himself on ALL of the main stream news sites, has his own troll-farms that type self-promotion glam posts about him on every blog on the web, floods all of the search engines with PR photos of himself and is clinically diagnosed as a 'sociopath'. .."

*"...Elon Musk (Along with his Silicon Valley Cartel bromance frat boy buddies Eric Schmidt and Larry Page, et al) is a mobster-class criminal sociopath who hired business assassins to attack us and operated anti-trust and RICO law violating competitor "kill programs". He used his windfall of taxpayer funded cash and Goldman Sachs assisted stock market manipulations and intelligence agency staff and tools from In-Q-Tel and Google to engage in these crimes. Plaintiffs have demanded that the FBI arrest him and that the SEC, FTC and NHTSA prosecute him. Plaintiffs will make certain that his legacy, for the rest of time, reveals the true facts about his crimes and political manipulations..."*

Per his own staff, ex-wives, partners, ex-founders, suppliers, FBI, SEC, Congress and private investigators. These are all statements from court reports, investigations, FBI submissions and Congressional reports. **Each numbered statement is associated with a numbered witness report containing the evidence for the statement. Please pass this report around** and post it on Tesla windshields. Plaintiffs demand a hearing, with Musk on-site, on a live Senate televised and webcast investigation hearing in Congress to go over each of these points.

## Nobody On Earth Can Launder And Hide Illicit Cash, Or Bribe Politicians, Like Elon Musk

He's worth an estimated \$39 billion, but has repeatedly said he's poor. He is a scumbag liar and a crook!

Page 14 - EXHIBIT 93 – Case # 22-cv-1107-TSH, Norcal 9th District

In one of a series of wild tweets posted last week, [Elon Musk stated](#) ( <https://twitter.com/elonmusk/status/1256239554148724737> ) he would be “selling almost all physical possessions” and that he would “own no house.” He appears to be actually following through with that promise, as chronicled in a great story [in The Wall Street Journal](#) ( <https://www.wsj.com/articles/elon-musk-techs-cash-poor-billionaire-11588967043?mod=e2twd> ) about Musk’s personal finances that you should go read.

According to the *WSJ*, despite being worth an estimated \$39 billion on paper:

...he has to borrow, sometimes a lot, to pay for his lifestyle and business investments without liquidating shares that help him maintain control of the companies he runs. About half his Tesla stock is pledged as collateral for personal loans, an April 28 financial filing shows. Maintaining his equity stake—about 20%, or around \$29 billion at its current valuation—is important for him to keep control over the Silicon Valley auto maker.

Musk also doesn’t take a salary at Tesla, but he apparently became eligible for stock options worth more than \$1 billion this week. To get that money, he will need an eye-watering \$592 *million* to exercise the option, according to the *WSJ*. It’s not clear if Musk has the money on hand to exercise that option or if the money raised from the house sales will be used to help pay for the sum. “Mr. Musk said he wasn’t selling his possessions because he needs the money,” the *WSJ* reported.

The article also lists a few times Musk has said he’s cash poor. Here’s one example:

Before Tesla went public, Mr. Musk told a judge during a contentious divorce with his first wife that he had run out of cash and had taken on emergency loans from friends to support his family and pay living expenses.

Here’s another:

Last year, Mr. Musk’s ability to access cash came up again during a defamation lawsuit over comments he made about a man involved in the rescue of a Thai soccer team from a flooded cave in 2018. A lawyer in the case said in a filing that Mr. Musk had described himself as “financially illiquid.”

The whole article has a lot of history about Musk, interesting information about his finances backed up by regulatory filings, and numerous quotes from Musk himself, and I sincerely recommend taking 10 minutes [to read it in full](#). ( <https://www.wsj.com/articles/elon-musk-techs-cash-poor-billionaire-11588967043?mod=e2twd> )

Musk has Goldman Sachs, Welles Fargo and Wilson Sonsini Mobster-Class executive bankers hide his money in a rabbit warren of HUNDREDS of trusts, shell corporations and fake charities from South Dakota, to Switzerland to the Cayman Islands to Russia.

A federal investigation to show the tentacular diagram of scams has been demanded!

## Let's Count Elon Musk's Lies And Scams

*Figure 1: One of Musk's Lies Starts With: "I have hair..."*

**These are the illicit things that sociopath narcissist Musk has engaged in with the taxpayer cash he mooched from government treasuries from a wide group of reports and articles on-line:**

1. Private investigators have produced reports on the Elon Musk and Tesla Motors fraud, stock rigging, bribery and safety investigations that Musk's Silicon Valley Sandhill Road venture capitalists cover-up.
2. Musk hides his money in illicit and false-front real-estate scams to avoid taxes and to launder money.
3. "His corrupt cobalt mines promote genocide in the Congo as seen in NETFLIX Black Earth Rising".
4. "His corrupt cobalt mines promote mass rape in the Congo as seen in NETFLIX Black Earth Rising".

Page 16 - EXHIBIT 93 – Case # 22-cv-1107-TSH, Norcal 9th District

5. "His corrupt cobalt mines promote child slave labor in the Congo as seen in NETFLIX Black Earth Rising".
6. "He tries to bury his ill-gotten money from the taxpayers in gobs of real estate acquisitions and houses including his notorious purchase of the Vaughn DeGuigne Court mansion at 891 Crystal Springs Road, in Burlingame, California which is staged for his kinky sex parties and Illuminati-like cartel get-togethers..."
7. "His is not faithful to his girlfriends. Some of them are Ghislane Maxwell-type enablers, too, just to hang around his money and promote his sex schemes like Maxwell did for Epstein"
8. "The workers that build his batteries die or sicken from toxic poisoning and Musk tries to hide his dirty factories overseas"
9. "Tesla bribes U.S. Senators with cash and stock in order to get free taxpayer funds"
10. "He is addicted to drugs and booze"
11. "He has 'sociopath-class' mental issues and he is a narcissist..."
12. "Tesla has had more recalls for safety defects, per volume, than any other car maker. Musk refuses to allow the use of the word RECALL but the facts are the facts."
13. "It is so easy to hack any Tesla and crash it, break into it or give it bad braking orders that it is criminally negligent to allow Tesla's on the street. Even the Chinese have hacked Tesla's from the other side of the world! Tesla's have been hacked and remotely crashed, the drivers killed and Tesla covers this up..."
14. "His partner: Steve Jurvetson, has been charged with sex and corruption issues"
15. "He arranged government kick-backs with the White House"
16. His entire current existence is based on stock market scams created with taxpayer dollars and Goldman Sachs securities manipulations
17. "He is the world's biggest government mooch and has taken more taxpayer cash than anyone in U.S. History as a billionaire who does not need a hand-out"
18. "He is a member of the Palo Alto Tech Mafia operated by Stanford University gay frat house guys"
19. "Google (who is a major Tesla investor) hides all negative Musk/Tesla news in digital media globally and hypes TSLA stock in order to profiteer with Tesla stock. This is a violation of federal SEC laws"

Page 17 - EXHIBIT 93 – Case # 22-cv-1107-TSH, Norcal 9th District

20. "More drivers have been caught driving drunk, in Tesla's, than any other car Per Capita produced"
21. "Google boss Larry Page is Musk's 'bromance' boyfriend buddy and he uses Google to cover-up Musk's scandals"
22. "His so-called 'foundation' is just a payola and tax evasion scam for his family. It is a charity scam"
23. "His batteries are the most dangerous use of lithium ion storage ever conceived"
24. "His partner: Panasonic, has been charged with multiple corruption, dumping, price rigging and manipulation crimes around the globe"
25. "Almost all of the internet 'Tesla Fanboys' are Russian troll farms and hired bloggers that Musk pays vast amounts of money to in order to hype up a fake image for him. Musk has over 1000 click-farm and Russian troll bloggers under his employ via various false-front cover organization contractors.
26. "The drug and murder-for-hire website: *Silk Road*, was built at drug-enthusiast Musk's company SpaceX by Musk's programmer and Musk hires many people from a group called: In-Q-Tel, who were caught with tons of cocaine on their airplanes in a DEA raid"
27. "His SpaceX is nothing more than a domestic spy satellite company"
28. In-Q-Tel supplies a number of Musk's staff, yet In-Q-Tel has been accused of numerous criminal ventures and abuses of the public.
29. You never hear about these crimes because Musk's buddies in Silicon Valley control 90% of the global media these days and they censor any bad news about Musk in order to protect their Cartel.
30. "Musk's brain chip company tortures monkey's and other small animals in bad science experiments"
31. "His father screwed his daughter and got her pregnant. His father seems to be a pedophile and incest participant"
32. "Dianne Feinstein and her family covertly own many Musk interests and arranged for him to get his funds from the taxpayers. She helped sabotage his competitors in her district"
33. "You can't put out the fires when his batteries explode say fireman because Lithium fires are military class thermo-dynamics"
34. "The fumes from his lithium ion thermal battery vapors give you cancer, lung and brain damage"

Page 18 - EXHIBIT 93 – Case # 22-cv-1107-TSH, Norcal 9th District

35. Psychologists say that Musk is a self promoting, narcissistic, multi-billion dollar, self-aggrandizing PR hype addict.
36. Many of us know these facts from personal interaction with Musk, his companies and his politicians.
37. Everything in these reports can be proven in a jury trial, Congressional hearings or live TV debates but Musk would rather die than face uncontrolled public scrutiny.
38. Musk will do anything to keep this information from getting out, including hiring attack services like his Fusion GPS, Black Cube, Gawker and Gizmodo Kill services.
39. While Musk's dirty deeds sound like a bad Hollywood movie script. It all really happened and there is now massive hard copy evidence to prove it.
40. Elon Musk exists because he bribed DNC politicians including Obama, Clinton and Senators Feinstein, Reid, Boxer, Harris, Spier and Pelosi to give him free taxpayer cash and government resources from the Department of Energy and the California political tax pool.
41. When you follow-the-money and the insider trading, stock ownership and crony payola kick-backs. The payola between Musk, his scummy cronies and the politicians is proven.
42. The Musk empire pays bribes in billions of dollars of Google (Where Musk's boy buddy Larry Page works), Twitter, Facebook, Tesla, Netflix and Sony Pictures stock and stock warrants which is never reported to the FEC
43. The Musk empire pays bribes in billions of dollars of Google, Twitter, Facebook, Tesla, Netflix and Sony Pictures search engine rigging and shadow-banning which is never reported to the FEC
44. The Musk empire pays bribes in free rent
45. The Musk empire pays bribes in Male and female prostitutes
46. The Musk empire pays bribes in cars
47. The Musk empire pays bribes in dinners at fancy restaurants
48. The Musk empire pays bribes in socialite party financing
49. The Musk empire pays bribes in Sports Event Tickets
50. The Musk empire pays bribes in Political campaign printing and mailing services "Donations"
51. The Musk empire pays bribes in Secret PAC Financing. Musk's empire is a massive political financing conduit for the DNC politicians via a tentacular array of covert shell corporations, trusts, 501C's and stock bribes.

Page 19 - EXHIBIT 93 – Case # 22-cv-1107-TSH, Norcal 9th District

- 52.The Musk empire pays bribes in Jobs in Corporations in Silicon Valley For The Family Members of Those Who Take Bribes And Those Manage Bribes
- 53.The Musk empire pays bribes in "Consulting" contracts from McKinsey Consulting as fronted pay-off gigs
- 54.The Musk empire pays bribes in Overpriced "Speaking Engagements" which are really just pay-offs conduited for donors
- 55.The Musk empire pays bribes in Private jet rides and use of Government fuel depots (ie: Google handed out NASA jet fuel to staff)
- 56.The Musk empire pays bribes in commercial Real Estate
- 57.The Musk empire pays bribes in Fake mortgages
- 58.The Musk empire pays bribes in The use of Cayman, Boca Des Tores, Swiss and related money-laundering accounts and The use of HSBC, Wells Fargo, Goldman Sachs and Deustche Bank money laundering accounts and covert stock accounts
- 59.The Musk empire pays bribes in Free spam and bulk mailing services owned by Silicon Valley corporations
- 60.The Musk empire pays bribes in the use of high tech law firms such as Perkins Coie, Wilson Sonsini, MoFo, Covington & Burling, etc. to conduit bribes to officials
- 61.The U.S. Energy Dept (DOE) has been covering-up organized political crime activities in which government funds are being used as a slush-fund to pay off political campaign financiers and to pay for CIA/GPS Fusion-Class attacks on Silicon Valley business competitors via Musk political conduits.
- 62.Political campaign financiers and government agency staff share stock market holdings with each other under family trusts, shell corporations and layered Goldman Sachs accounts.
- 63.The basic Musk scam-deal goes like this: *"Obama funds Tesla, Musk conduits campaign funds to Obama, top Obama staff profit off of insider Musk stocks..."*
- 64.Elon Musk is a criminal, a mobster, an asshole, a balding fake-hair wearing, plastic surgery-addicted, bi-sexual douchebag, woman-abusing, sex addicted, tax evader. Plaintiffs can put this in writing because all of those identifications regarding Musk can be proven in court and are documented in existing lawsuits and news stories.
- 65.Musk exploits poor people and child slaves in the Congo and Afghanistan to mine his lithium and Cobalt. Look up this phrase on the top search engines: "child labor electric car batteries".
- 66.Musk spends billions per year to hire Russian trolls, fake blogger fan-boys and buy fake news self-glory look-at-me articles about himself.

Page 20 - EXHIBIT 93 – Case # 22-cv-1107-TSH, Norcal 9th District

67. Musk thinks he is the 'Jesus' of Silicon Valley and he will do anything to make the public think so.
68. Musk is insecure because his father was abusive and his “trophy wife” Mother is overbearing so he developed sociopath-like mental issues.
69. Musk has been professionally diagnosed as a 'psychotic narcissist.
70. He public stated on an investor call that he uses drugs and alcohol to get through the night. Plaintiffs have the tapes.
71. Musk relies on Google and the DNC Main Stream News (MSN) to hide bad news about him.
72. Fake News manipulator Google is run by Larry Page. Larry is Musk's investor and bromance ‘Butt buddy’. They share an apartment.
73. Musk uses massive numbers of shell companies and trust funds to self-deal, evade the law and hide his bribes and stock market insider trading.
74. His brother ran Solar City and is now under federal investigation for securities fraud.
75. A huge number of Tesla drivers have been killed; pedestrians and oncoming drivers have also been killed, and Musk covers it up.
76. Extremist politicians and their controlled news outlets refuse to allow any articles about Musk's crimes to be printed because they benefit from Musk's crimes.
77. Investor oligarch's Tim Draper and Steve Jurvetson are so fanatical about not being embarrassed from a Tesla bankruptcy that they will pump the TSLA stock and threaten anybody who might disclose the Musk misdeeds.
78. Peter Thiel, a Musk ‘boyfriend’ also protects Musk. Musk, and his cronies, use Palantir, Google and related software to scan the entire internet every few minutes for any occurrence of the words: “Musk”, “Tesla” or “Tesla Fire”. They send trolls and fake bloggers (Many of them Russian) to put pro-Musk comments on the comments section of any blogs or articles discussing those topics and try to flood out the truth about Musk.
79. In EVERY blog that you read that mentions 'Musk', at least 1/3 of the comments have been placed there by Musk's paid shills.
80. There are no “Tesla Fan Boys”. All of the fanatic Tesla comments on the internet are Musk's, Thiel's, Jurvetson's and Draper's fake fanboy trolls. Musk, himself, stays up late at night pretending to be a ‘Tesla Fan Boy’ on blogs.
81. The 'Silicon Valley Mafia; cartel of frat boy sociopath venture capitalists like Steve Jurvetson, Tim Draper, Eric Schmidt, et al; threaten those who do not support the cult of Tesla or their political candidates.

Page 21 - EXHIBIT 93 – Case # 22-cv-1107-TSH, Norcal 9th District

82. Musk holds the record for getting sued for fraud by his investors, wives, former partners, employees, suppliers and co-founders.
83. Elon Musk has gone out of his way to hire hundreds of ex-CIA and In-Q-Tel staff and assign them to "dirty tricks teams" to attack his competitors and elected officials who Musk hates.
84. Musk never founded his companies. He took Tesla away from the founder: Marty, in a hostile take-over!
85. Musk's "Starlink" satellites are domestic spy and political manipulation tools - never get your internet from one. SpaceX is entirely a spy satellite operation.
86. The same kind of EMF radiation proven to cause cancer from cell phones exists in massive amounts in a Tesla.
87. Musk can't fix a car or build a rocket and has almost no mechanical skills he can't build or work on any of the things he made himself famous for.
88. If you pull a report of every VIN# of every Tesla ever built and cross reference that with insurance, repair and lawsuit records you will find that the "per volume" fire, crash, death and defect rate is THE WORST of any car maker in history!
89. Musk is a lying con artist and partners with Goldman Sachs to rig the stock market. Sachs has a dedicated team of 18+ men who rig stocks and valuation bumps for Musk.
90. Over 1000 witnesses can prove every one of those claims in any live televised Congressional hearing!
91. Senators Dianne Feinstein, Harry Reid, Nancy Pelosi, Kamala Harris and their associates own the stock in Tesla Motors and/or its suppliers and mining companies. That is why they criminally help cover-up investigations of Tesla!
92. All of this was reported, in writing, to James Comey, Patricia Rich and David Johnson at the FBI by those who supplied this information but Musk has yet to be arrested because crooked California politicians, who own his stock, protect him from arrest.
93. Why aren't all of those parties in prison if it is so easy to prove the crime? Think back to recent history: the heads of the Department of Energy, the FBI, The DOJ and the U.S. Attorney General were kicked out of their jobs for corruption. THIS was the corruption they were doing. They all knew about this crime but they were covering it up.
94. Musk took over Tesla Motors in a hostile take-over in order to exploit lithium, cobalt and other mining corruption deals for his business partners.
95. When you take a look at the 'lithium' in Musk's horrifically miss-engineered lithium ion batteries you will uncover horrible crimes engaged in to acquire it.

Page 22 - EXHIBIT 93 – Case # 22-cv-1107-TSH, Norcal 9th District

- 96.His batteries cause wars in the Congo, Afghanistan and Bolivia from the corrupt mining deals involved with mining lithium and cobalt.
- 97.Lithium ion batteries are insider trading-owned by ex-CIA boss Woolsey and DOE Boss Chu.
- 98.Lithium ion batteries excrete chemicals that mutate fetuses when they burn and destroy your brain, lungs and nervous system when they burn
- 99.Musk's batteries kill the factory workers who make them
- 100.Musk's batteries cause Panasonic to be one of the most corrupt companies in the world
- 101.Musk's batteries poison the Earth when disposed of
- 102.Musk's batteries can't be extinguished by firemen
- 103.Musk's batteries poison firemen when they burn
- 104.Musk's batteries are based on criminally corrupt mining schemes like URANIUM ONE
- 105.Musk's batteries have over 61 toxic chemicals in them
- 106.Musk's batteries come from an industry that spends billions on internet shills and trolls used to nay say all other forms of energy
- 107.Musk's batteries and are insider-trading owned by corrupt U.S. Senators who are running a SAFETY COVER-UP about their dangers.
- 108.Apple products with lithium ion batteries have been exploding and setting people on fire.
- 109.Over time the chemical dendrites, or deposits, inside each Musk battery grow worse and increase the chances of explosion as they age -
- 110.Musk's LITHIUM ION BATTERIES BECOME MORE AND MORE LIKELY TO EXPLODE AS TIME GOES ON AND AS THEY AGE. This is not a theory. This is a scientific fact. That is why you hear about more and more lithium batteries catching fire and blowing up.
- 111.Additionally, scientists also speculate that the increasing presence of low energy nuclear background energy and wifi energy in the environment is making lithium ion batteries explode more often lately. This theory is upheld by the increasing number of FAA reports about commercial airline cabins suddenly “filling up with toxic smoke” as some lithium ion battery explodes in someones overhead luggage. As commercial jets go higher they lose the protection of the atmosphere and are subjected to more gamma (and other) radiation from overhead. This makes the already unstable lithium ion batteries on board blow up.
- 112."Bad Guys" have figured out how to make them explode remotely in devices by making the device electronics cause the batteries to overload.

Page 23 - EXHIBIT 93 – Case # 22-cv-1107-TSH, Norcal 9th District

113. The dangers of lithium ion batteries are hidden by CNN and Main Stream News (MSN) because pretty much only the DNC people profit from them and the DNC folks control CNN and the MSN.
114. The Obama Administration promised Silicon Valley oligarchs the market monopoly on lithium ion batteries and the sabotage of fuel cells in exchange for campaign financing and search engine rigging
115. United States Senators that are supposed to protect us from these deadly products own the stock market assets of them so they protect them and stop the FDA, OSHA, DOT & NHTSA from outlawing them.
116. Tom Steyer is a notorious DNC financier. His partner, Margaret Sullivan ran, the federal USAID agency, USAID sent all of the DNC campaign financiers in Silicon Valley a federal 'report' from USAID that said there was "A TRILLION DOLLARS OF LITHIUM IN AFGHANISTAN" and promised to give those lithium mines, EXCLUSIVELY, to the Silicon Valley venture capitalists if they funded and web search manipulated the election for Obama to take over the White House. Plaintiffs have the documents proving this. In other words, a re-up of the Afghan War was caused by Elon Musk and it killed American soldiers so that Musk could buy more mansions and trophy wives.
117. Alkaline, NiCAD and hundreds of other battery chemistry DO NOT have all of these problems but Lithium Ion batteries get a monopoly because of politician insider trading ownership.
118. Tesla Motors has caused far more deaths and injuries than the world generally knows about.
119. A recent fire on U.S. Highway 101 near Mountain View, CA, burned the driver alive and killed him.
120. In Florida two kids died in a Tesla, burned alive, screaming in agony.
121. A man died in agony in a Tesla crash in Malibu that set Malibu Canyon on fire.
122. A young woman, at the start of life, and her boyfriend were burned alive in their crashed Tesla.
123. There are many more deaths and crashes than you have seen in the Main Stream News (MSN) The deaths and the cover-ups are endless.
124. Senators Dianne Feinstein, Harry Reid, Nancy Pelosi, Kamala Harris and their associates own the stock in Tesla Motors and/or it's suppliers and mining companies and they cover-up and halt investigations and laws designed to save the public. They, and their crony's, spend over \$1B a year to shill and troll hype about lithium ion batteries and cover-up the dangers.
125. Lithium ion EVs are more prone to battery fires. Experts say that their lithium-ion batteries can fuel hotter fires that release toxic fumes and are more difficult to put out.

Page 24 - EXHIBIT 93 – Case # 22-cv-1107-TSH, Norcal 9th District

126. Lithium ion fires keep reigniting which explains why it takes so long and requires copious amounts of water or foam (it is an electric fire, after all) to smother the flames.
127. Tesla employee Bernard Tse and his team warned Elon Musk about these dangers in 2008 and they got fired and/or warned to "say nothing" by Musk.
128. Three top Tesla engineers died in a plane crash next to Tesla offices in San Carlos after two of them agreed to become whistle-blowers.
129. The DNC bosses, Congress people and federal executives own the stock in lithium, Solar and EV markets and use kickbacks from those markets (Especially via convoluted campaign finance laundering via Elon Musk) to finance the DNC.
130. The DNC bosses and Musk use character assassination as their main political tool against any member of the public who speaks out against their felony stock market scams and PizzaGate-like scandals. The Harvey Weinstein reports by Ronan Farrow show that they have teams of hired goons that they pay to destroy people's lives. They use Black Cube, Mossad, In-Q-Tel, Stratfor, Gawker Media, Gizmodo Media, Media Matters, David Brock, Sid Blumenthal, NY Times, Google servers, Facebook servers, Podesta Group, Perkins Coie, Covington & Burling and a host of "media assassins".
131. Musk's "cabin boy": Jared Birchell, runs around covering up Musk crimes all day
132. Gawker and Gizmodo Media set-up the attack stories and, in paid partnership with Google, Google kicks their attack links around the globe, in front of 8 Billion people, forever. Google locks the attack articles of its enemies on the front top search results of Google search results forever, on purpose! Google and Musk are partners-in-crime.
133. Larry Page steals technology for Google and Musk meets with Larry Page to advise him on which technologies to steal and how to bypass FEC laws.
134. Musk has exceeded FEC campaign finance limits by billions of dollars via "in-kind" services.

149. WE HAVE ASKED THE FBI, DOJ, OSC, SEC, FTC, GAO, U.S. CONGRESS, AND OTHERS, TO INVESTIGATE AND PROSECUTE MUSK AND HIS CRONY OPERATION!
150. ELON MUSK'S PAID-FOR MEDIA SHILLS COVER UP HIS CORRUPTION AND PUSH PUFF-STORIES ABOUT MUSK. NEVER TRUST THEM TO BE ANYTHING BUT BIASED PROPAGANDA OUTLETS. MANY OF THEM OWN TESLA STOCK: Electrek, Google, Facebook, CNN, Huffington Post, Dianne Feinstein's PR office, Nancy Pelosi, Steven Chu, MSNBC, PayPal, KPIX-TV, San Jose Mercury News, Any Hearst owned entity, The SF Chronicle, Motley Fool, Green Car Congress, The executive staff of the DNC, The NY Times, etc.
151. Plaintiffs saw Elon Musk commit crimes and we saw the Obama White House cover-up those crimes. Plaintiffs, and Plaintiffs associates, worked for Bright Automotive, Zap Electric, Aptera, Eco Motors, XPV, The United States Department of Energy and the federal Office of Management and Budget and Tesla Motors itself. Americans have an expectation that their tax dollars will be used in a fair and legal manner and not to pay off crony campaign financiers like Elon Musk.
152. Americans have an expectation that fair market competition will decide which companies get to live or die and that no campaign financiers gets to order the White House to produce the

Page 26 - EXHIBIT 93 – Case # 22-cv-1107-TSH, Norcal 9th District

death or success decision about any American business. Elon Musk's operation exists entirely because of criminal corruption and all of his companies must be shut down by federal law enforcement.

153. For nearly a decade, the U.S. Department of Energy has refused to comply with Freedom of Information Act (FOIA) requests for copies of Tesla Motors entire D.O.E. funding application documents. Former D.O.E. employees have shredded copies of those documents in order to keep them from being exposed to the public and the media. Why would they do that? Because those documents reveal felony criminal fraud by Tesla Motors, federal violations of the Section 136 law requirements and manipulations of the "hard-wiring" of the entire D.O.E. program. Those documents, which we have seen (and some Senate staff have private copies of) prove that, in a side-by-side comparison with all other applicants, the Tesla application was manipulation, rigged, false-reviewed and crony-advanced in order to pay-off certain campaign financiers and damage their competitors.
154. Demand that the U.S. Department of Energy stop breaking the law and comply with the FOIA requests to stop hiding the incriminating evidence in the Tesla files. Demand that the public be shown the original paper and not the later, "doctored" versions.
155. Plaintiffs saw Elon Musk operate an entirely illegal and unethical program based on State and Federal corruption. Plaintiffs told this, in writing and in person to the U.S. Attorney General: Eric Holder, who then quit his job after we reported these facts to him.
156. Plaintiffs reported that Elon Musk lied about vast number of dangers of the lithium ion chemistry he was using. Nothing was done.
157. Plaintiffs reported that Plaintiffs associates at the Department of Energy were having their safety reports on lithium ion danger suppressed. Nothing was done.
158. Plaintiffs reported that Elon Musk's credit rating and financial records were fraudulent and amounted to "cooking the books". Nothing was done.
159. Plaintiffs reported bribes paid by Musk's lobbyists and associated to government officials in order to grease the skids for his crony payola. Nothing was done.
160. Plaintiffs reported that Goldman Sachs and Tesla Motors were operating a stock fraud pump-and-dump scam to manipulate Elon Musk's stock holdings. Nothing was done.
161. Plaintiffs reported over a hundred illegal and corrupt actions by Elon Musk and his mob of Silicon Valley gangsters. Nothing was done.
162. If you have an ounce of morality, then you will not want to help Musk & Tesla profit from the crony political corruption that created them. Musk exists because he bribes politicians & acts as an illegal campaign financing conduit.

Page 27 - EXHIBIT 93 – Case # 22-cv-1107-TSH, Norcal 9th District

- 163.DOT/NHTSA has covered up years of reports about an acceleration surge issue that can suddenly crash your Tesla into walls and drive it off cliffs. It is either a known hacking attack or the effect of WiFi on Tesla electronics. Either can kill you.
- 164.Musk & Tesla are pure evil & exist because of hyper-corruption. You don't want to contribute to their evil or be part of it in any way. You are funding evil & supporting criminal corruption by buying a Tesla or any Elon Musk owned product like Solar City, Tesla, Space X, Hyperloop, etc.!
- 165.Elon Musk spent more money, than any other car company in history, to do the exact same things that any other car has done, or could do, for 20 times less money. Musk's Tesla was \$100,000.00 over budget, per car, at the time that Musk was handed his crony Dept. of Energy froms by Steven Chu. Musk has no clue how to operate a car company.
- 166.In one lawsuit it is noted that: "...Plaintiffs and Tesla both applied for funds at the same time, in the same funding cycle in the same program. Tesla had the historically epic number of horrific issues listed below, which were known to DOE at the time of application, and Plaintiffs had NONE of these issues. How can any court, or rational person, believe that Plaintiffs were not intentionally bypassed, targeted and damaged for political reasons while Tesla was simultaneously approved for political reasons, when the comparative metrics between the two applicants prove the largest merit disparity in the entire recorded history of the U.S. Department of Energy....the singular, and only, review criteria used by Department of Energy officials was: WHICH ONE BRIBED THE CAMPAIGN FINANCE GROUP FOR BARACK OBAMA?!"; Thus proving that Tesla exists because of organized-crime level political corruption.
- 167.Elon Musk's self-driving "autopilot" feature, which keeps crashing and failing, is his attempt to scam taxpayer cash from Dept. of Transportation and Dept. of Energy public funds. He is only trying to do it to get more free federal cash.
- 168.The inventor of lithium ion batteries has confessed that lithium ion batteries blow up eventually. He says that deadly dendrites plague lithium-ion battery technology. The dendrites accumulate as part of the standard charging and recharging cycle and eventually cause a short circuit that often results in a smoldering or burning battery. These dendrites are destined to eventually blow up most Tesla cars and many electronic devices using lithium ion!
- 169.The CIA's software designed to take over any Tesla on Earth and kill the driver, passengers and bystanders has been released in the wild and every hacker on Earth can now easily get a copy of it and kill you in your Tesla!
- 170.Ex-employees have leaked faked financial records, evidence of massive click-farm fake social media manipulation and evidence of unreported deaths and accidents. They say that most Tesla's have one kind of defect or another.

Page 28 - EXHIBIT 93 – Case # 22-cv-1107-TSH, Norcal 9th District

- 171.If you read about the dirty deeds and cocaine dealings with the In-Q-Tel airplanes called “Cocaine 1” & “Cocaine 2”, & the corruption behind the company called In-Q-Tel & Musk’s software programmer who ran “The Silk Road” drug & murder service then you must be concerned that many In-Q-Tel people work for Musk. Why does Musk need dirty druggies & spies on his payroll unless he is running covert drug and business spying activities?
- 172.Ex-employees, Gawker writers and gay lawyers from Covington & Burling have leaked stories that Elon Musk, Reid Hoffman, Larry Page are “butt buddies”.
- 173.Musk is anti-American and Anti-Worker Rights and has been caught flying in H1-B cheap offshore labor and exploiting immigrants for his deadly profits. Musk hates unions and worker rights efforts.
- 174.Elon Musk gets the Cobalt chemical to make his lithium ion batteries from slave trade and blood-money corruption in the Congo!
- 175.The lithium ion batteries that Musk uses also blow up when they naturally encounter Low Energy Nuclear (LENR) effects in the ambient environment. Millions of chemicals don’t blow up from LENR’d but lithium ion does!
- 176.If you are a Democrat then know that Elon Musk cost you the Hillary Clinton campaign because of his payola schemes. If you are a Republican, know that Elon Musk is the epitome of the worst form of DNC crony corruption you ever saw!
- 177.Musk bribed California politicians to give him hundreds of millions of dollars of taxpayer dollars & resources he never earned or worked for. He only got those crony payola perks handed to him because he operated as an illicit front for corrupt campaign financing for Dianne Feinstein, Jerry Brown, Harry Reid, Barack Obama and Hillary Clinton.
- 178.Multiple parties have filed “Demands For The Arrest of Elon Musk” with the FBI, DOJ, AG, FTC, SEC and other law enforcement agencies. It is not likely that Musk, or his companies will survive a full investigation.
- 179.Tesla and Solyndra sit on the same land in Fremont, CA. Solyndra was raided by the FBI for corruption. Tesla SHOULD be raided by the FBI for corruption. Both companies had kick-back crony payola schemes with Senator Dianne Feinstein. She owned the land, lease, HR, construction company and supplier interests and stock for both companies in one of the most massive conflict-of-interest crony financing schemes in U.S. history. Elon Musk and the Feinsteins are corruption partners.
- 180.People who see you in a Tesla think of you as a “Tone Deaf Douchebag”, “Tesla Tool!”, “Arrogant Prick”, “Ostentatious Obama Oaf”, “Sheep”, “Mindless Yuppie Scum”, “Misogynistic Silicon Valley Clone”, “Self-promoting Elitist Douche”, “Fake News Reading Main Stream Boob”, “Naive Idiot” or other bad things.

181. Elon Musk is one of the main financiers behind Barack Obama & Hillary Clinton, both of whom have been charged with corruption. Musk endlessly tweets lies & “...No I didn’t do those bad things” BS but nobody else supports him.
182. Tesla financial records are “cooked” in a fraudulent manner to make the stock market valuation of Tesla a falsely manipulated factor. Musk uses “pre-orders”, by his own investors, to fake sales and wrote emails to customers asking them to put small deposits down so he could book them as fully paid sales in one of a large number of stock and loan valuation frauds. Musk and his investors practice stock market skims, pump-and-dumps and Flash Boy manipulations.
183. Lithium ion batteries are blowing up, starting fires &, generally, destroying people’s homes, cars, electronics & physical health. Boeing was ordered to stop flying the 787 Dreamliner because it's Lithium ion batteries are catching fire spontaneously. A group of silicon valley venture capitalists forced/leveraged the government to buy & pay for these specific batteries, that they have stock in, in order to benefit their profit margins. Other batteries don’t have these problems. They knew about the dangers from day one, but put greed ahead of safety. There are thousands & thousands of reports of spontaneous lithium ion fires but the VC's who back lithium ion pay to keep this information hushed up. Millions of these batteries have been recalled for fire risk. The VC's tried to push as many as they could before they got caught. Now they are caught. These VC's & the Senators they bribed own stock in lithium mining companies too.
184. Tesla Motors has filed a patent which states the following , THESE ARE TESLA MOTORS WORDS warning about a crisis, the level of which they never disclosed to the consumer:  
*“Thermal runaway is of major concern since a single incident can lead to significant property damage &, in some circumstances, bodily harm or loss of life. When a battery undergoes thermal runaway, it typically emits a large quantity of smoke, jets of flaming liquid electrolyte, & sufficient heat to lead to the combustion & destruction of materials in close proximity to the cell. If the cell undergoing thermal runaway is surrounded by one or more additional cells as is typical in a battery pack, then a single thermal runaway event can quickly lead to the thermal runaway of multiple cells which, in turn, can lead to much more extensive collateral damage. Regardless of whether a single cell or multiple cells are undergoing this phenomenon, if the initial fire is not extinguished immediately, subsequent fires may be caused that dramatically expand the degree of property damage. For example, the thermal runaway of a battery within an unattended laptop will likely result in not only the destruction of the laptop, but also at least partial destruction of its surroundings, e.g., home, office, car, laboratory, etc. If the laptop is on-board an aircraft, for example within the cargo hold or a luggage compartment, the ensuing smoke & fire may lead to an emergency landing or, under more dire conditions, a crash landing. Similarly, the thermal runaway of one or more batteries within the battery pack of a hybrid or electric vehicle may destroy not only the*

*car, but may lead to a car wreck if the car is being driven or the destruction of its surroundings if the car is parked”*. See <http://whoiselonmusk.com> for more. ..

185. Tesla's own staff, & every fire department, have now admitted that once a lithium ion fire gets started in a Tesla, that it is impossible to extinguish burning lithium ion material. This is Tesla's own words in THEIR patent filing, (You can look it up online) saying that the risk is monumental. Tesla has 6800 lithium ion batteries, any one of which can “go thermal”, start a chain reaction and blow up all of the rest of the 6800+ deadly batteries! Tesla drivers have been burned alive in thermal globs of flaming lithium ion, plastics & metal. Bystanders have heard their horrific screams of unutterable pain & terror as they were burned alive! Tesla fires can't be extinguished & the bodies are burned into “unrecognizable lumps of charred flesh”, according to fireman.
186. Lithium Ion batteries “go thermal” in peoples pockets, in your notebook, especially in a Tesla & Fisker car. There are tens of thousands of articles documenting this & there is a cover-up by the VC's that fund these things to keep this fact out-of-sight. Making Lithium Ion batteries poisons the workers who make them. It is a dangerous product that is covered-up by the Obama Administration. Panasonic knows that these batteries are deadly.
187. Tesla only exists to exploit Elon Musk's bribes. The lithium ion batteries blow up when they get: wet, hot, bumped, over-charged, struck by energy fields, exposed to air or squashed. Lithium ion batteries poison the Earth & that they poison & kill the workers that make them. Lithium ion batteries come from war profiteering in Afghan & Bolivian corruption
188. Panasonic is Elon Musk's partner. Panasonic is one of the most corrupt companies in the world. Panasonic has been charged, on multiple continents with: Product dumping, bribery, collusion, price fixing, anti-trust law violations, racketeering, worker abuse, toxic poisoning of workers, & other crimes. It is no wonder that Elon Musk & Panasonic are partners. Tata Motors executive Karl Slym was killed for exposing this fact.
189. Your tax dollars were stolen in order to make Tesla Motors, as part of a political financing kick-back scam. In other words, part of your paycheck was taken away from you in order to buy hookers, rent-boys & private jets for Musk & company.
190. Tesla's are forged in criminal corruption, so anybody who drives a Tesla must be either ignorant, a weasel or one of the corrupt. The whole world now knows all of the facts in this list so you can never plead ignorance to these crimes.
191. Tesla's have a huge amount of highly documented defects. The defects are so extensive that Tesla made buyers sign confidentiality agreements to try to hide how messed up their cars are.
192. Tesla's have killed more people than the main-stream news has reported. The full Tesla death-list is covered up.

Page 31 - EXHIBIT 93 – Case # 22-cv-1107-TSH, Norcal 9th District

193. Musk lied about why he wanted to make electric cars, when, in fact, he actually poisons the environment because Tesla investors wanted to exploit toxic minerals & materials which can't be recycled in a clean manner
194. No other electric car has been so mundane, & yet had so many problems with it, since the electric car was first sold in the 1800's. There is nothing "novel" or "amazing" about the Tesla aside from dime store parlor tricks for PR hype.
195. More drunks have crashed Tesla's, than any other per capita car in the world, per volume of cars made
196. Elon Musk's co-founders, investors, partners, wives, investors, suppliers & employees have sued him for being a fraud &, essentially, called him an "asshole" in court records.
197. Elon Musk lied on this Department of Energy funding application and the Obama Administration refuses to allow any federal employees or witnesses to testify to these facts in public due to the devastating potential results of these facts.
198. More owners of Tesla's have been found to cheat on their taxes, & be involved in abuse-based divorces, than almost any other car brand owner. Tesla owners are bad people who rationalize their poor life choices. Owning a Tesla is a red-flag for a tax audit!
199. Elon Musk will lie, cheat & steal in order to self-aggrandize & glorify his egotistical mania. Musk has been documented engaging in over 100 lies which were later proven to be false. He has spent tens of millions of dollars to buy fake news about himself on Twitter, Facebook & Google because he is such a mentally disturbed ego-maniac.
200. None of Elon Musk's companies would exist if not for taxpayer funded handouts given to him by corrupt politicians in exchange for illegal campaign finance deals with him & his investors.
201. Google, & Tesla, who are financial & political partners, have both been caught spying on consumers & manipulating Internet data in order to cover-up their complicity in huge political corruption & kick-back deals
202. Musk took U.S. taxpayer dollars from the government & then hired cheap off-shore labor & fired U.S. Union workers & domestic workers. He lied to & screwed the NUMMI workers that were working at the Fremont plant.
203. Musk has put over 18 surveillance devices in the Tesla. Anybody can hack those devices & monitor you. WORSE YET, foreign agents have hacked the Tesla & taken over the controls & driven Tesla's into bystanders & over cliffs.
204. When Erick Strickland was head of the NHTSA he was confronted about DOT safety cover-ups of the Tesla to protect Obama. He quit 48 hours later. The DOT safety cover-ups to protect

Page 32 - EXHIBIT 93 – Case # 22-cv-1107-TSH, Norcal 9th District

the Obama campaign finance payola scheme continue to this day. Obama's Gibbs, Emanuel, Plouffe, Axelrod and Carney quit within a week of being threatened with exposure.

205. Elon Musk paid some of the largest bribes in the history of China, facilitated by Dianne Feinstein and her Chinese spy connections, in order to get his China factory opened.

206. Tesla's have had a large number of recalls but Elon Musk refuses to call them "recalls". Tesla's have had multiple recalls for SEVERE safety dangers. DOT has been told this, in writing, for years, but won't take action in order to protect Obama.

207. Elon Musk is a bullshit artist who has no original ideas & wears black-turtle neck shirts (like Elizabeth Holmes) to try to create a "cult" around himself & convince the world that he is a "Jesus-like" figure when, in fact, he is a clinical sociopath.

208. Tesla is a severe public safety hazard that has been systematically covered up by corrupt politicians.

209. Large numbers of Ex-CIA staff and In-Q-Tel spy staff work for Musk. Why does he need spies to build cars?

210. Tesla Motors batteries were promoted by those who wished to exploit the Afghanistan War for personal profit by controlling the Afghan lithium mining fields. Kleiner Perkins and Draper Fisher hyped the "...trillions of \$ of lithium in Afghanistan."

211. Tesla Motors batteries blow up on their own because their chemistry causes them to be naturally defective.

212. Tesla Motors batteries blow up when they get wet because their chemistry is activated by water to make them explode.

213. Tesla Motors batteries fires cannot be put out by any common fire-fighting resources.

214. Tesla Motors batteries set themselves on fire.

215. Per Federal MSDS disclosure documents, Tesla Motors batteries emit cancer-causing vapors when they burn.

216. Tesla Motors Vehicles toxicity poison bystanders, nearby vehicular passengers, airline passengers in planes carrying said batteries in their holds, & environments where such incidents occur.

217. Tesla Motors batteries blow up when bumped by the same level of car incident that would, otherwise, only dent a normal car bumper.

218. In an accident, when a Tesla rolls over, molten metal & plastic can drip on & burn the occupants alive.

Page 33 - EXHIBIT 93 – Case # 22-cv-1107-TSH, Norcal 9th District

219. Tesla has multiple sexual harassment and unsafe work-place lawsuits against the company.
220. Per MSDS documents, Tesla Motors batteries emit brain damaging chemicals when they burn
221. Tesla is a stock pumping scam to profiteering on stock market peak manipulation at the expense of taxpayers.
222. Per MSDS documents, Tesla Motors batteries emit chemicals, burning, or not, that can damage an unborn fetus within the mother
223. Per MSDS documents, Tesla Motors batteries emit chemicals that can cause lung damage.
224. Per MSDS documents, Tesla Motors batteries emit chemicals that can cause liver damage.
225. Per published lawsuits & news reports, the factories that make Tesla Motors batteries have been charged with the deaths, & potentially fatal illness, of over 1000 workers & the poisoning of nearby towns.
226. Tesla Motors batteries become even more dangerous over time, particularly when tasked by electric transportation systems like Hover-boards & Tesla's. The chemistry in a lithium ion battery changes to become more unstable over time.
227. Tesla Motors batteries were never designed to be used in automobiles. Tesla used non-automotive batteries in one of the most dangerous configurations possible.
228. Tesla Motors occupants experience higher EMF radiation exposure than gasoline vehicle occupants.
229. Elon Musk's Space X vehicles & Tesla Motors vehicles have both had a higher-than-average number of explosions. This has caused outside experts to doubt Musk's ability to place safety considerations over his need for hyped-up PR.
230. Leaked Sandia National Labs & FAA research videos dramatically demonstrate the unstoppable, horrific, "re-percussive accelerating domino-effect" explosive fire effect of the Tesla Motors batteries.
231. Tesla's own "Superchargers" & home 3-prong chargers have set Tesla's, homes & businesses on fire
232. Consumer rights groups contacted Erick Strickland, the head of the NHTSA, & charged him with a cover-up. He quit days later. The NHTSA then issued a safety investigation request to Tesla Motors, which would have more publicly exposed these dangers, but the safety investigation was never under-taken due to White House requests & lobbyist bribes, from Tesla, which got the investigation shut down.
233. NEPA regulations for the Tesla NUMMI factory in California & the Nevada Tesla "Gigafactory" have been violated relative to environmental safety standards.

Page 34 - EXHIBIT 93 – Case # 22-cv-1107-TSH, Norcal 9th District

234. Tesla Motors vehicles are not “Factory Built” “like Ford” builds cars, as Tesla professes. They are hand built in small volumes & subjected to numerous defects. Blogs have documented hundreds of defects, as listed by Tesla owners. Tesla has lost at least one LEMON CAR LAWSUIT for defective manufacturing.
235. Tesla's “showrooms” are often “pop-up” retail storefronts that are in tight-proximity retail centers, putting it's neighbors at risk of total loss from fire damage.
236. Tesla Motors vehicles have been hacked & taken over. Their doors, steering, listening devices & navigation have been taken over by outside parties. Multiple Tesla have suddenly swerved off the road, over cliffs & into other vehicles, killing bystanders & Tesla drivers.
237. Three Tesla top engineers & two competing senior executives, all of whom had whistle-blown on Tesla, who were in perfect health one day, suddenly died mysteriously the next day.
238. Multiple employees, founders, investors, marital partners, suppliers & others have sued Tesla Motors, &/or it's senior executives for fraud. Musk had nothing to do with creating Tesla. He ran a hostile take-over of Tesla from the founders.
239. In addition to suing him, many of his former staff & partners have described Musk as an “Arrogant Prick”.
240. Main-Stream Media (MSM) have agreed not to provide news coverage of the deadly defects of the Tesla because the MSM are owned by the same politicians who own Tesla Motors. It is now legal to sue The New York Times for hiding these deadly defects, though, particularly if your family member was injured or killed because they covered-up the danger for political reasons.
241. If you think the above bullet-points are bad there are over a 1000 more. Find the book “Is Elon Musk A Fraud” online or visit <https://stopelonfromfailingagain.com/> ( PER THE WAYBACK MACHINE Internet Archive) or thousands of other sites that expose the truth about Musk & Tesla!
242. BANKRUPT MUSK – NO CASH FOR CRONY CORRUPTION. Print this out & freely re-post it on blogs & social media. Post this on bulletin boards. Put this on the windshield of every Tesla you find. Print this out & hand these out in front of every Tesla dealership: Nobody can stop you from handing these out, it is your U.S. Constitutional First Amendment Right! Pass the word! Plaintiffs are prepared to back up every single fact on here at any public meeting with the FBI, Congress, FTC, GAO, SEC or before a Federal Special Prosecutor.
243. The crash of a Tesla Model X through the home of South Korean singer and actor Ji Chang Son. The crash ended with the nose of the vehicle in Ji Chang Son's living room after the Tesla malfunctioned. Hundreds of such Tesla crashes have occurred, resulting in the deaths and injuries of Tesla owners, passengers, bystanders, oncoming drivers and others.

## Page 35 - EXHIBIT 93 – Case # 22-cv-1107-TSH, Norcal 9th District

244. Following accusations by a Korean celebrity that a Tesla car spontaneously drove through a wall, the carmaker has replied that the crash was “entirely due to the man’s horrible driving” in an ongoing effort, by Tesla, to steer the blame away from Tesla faulty engineering. Actor and singer Son Ji-chang (identified as Ji Chang Son in court documents) claimed he was parking his Tesla Model X SUV when the vehicle suddenly [lurched forward into his living room](https://www.facebook.com/photo.php?fbid=1169875899799830&set=pcb.1169910243129729&type=3&theater) ( <https://www.facebook.com/photo.php?fbid=1169875899799830&set=pcb.1169910243129729&type=3&theater> ).
245. In a lawsuit filed last week in California, Son claimed that the crash was due to “sudden unintended acceleration” and sought class-action status with other Model X owners. In a nod to the car’s ability to sense and avoid crashes, the lawsuit also hinted that the Model X should not be allowed take actions that the car “knows will result in the collision with a fixed object.”
246. In June, another California-based Model X owner, Puzant Ozbag, similarly claimed that his Model X spontaneously accelerated through a parking lot and into a wall. A special prosecutor is needed to investigate Tesla due to the huge number of cover-ups, by Tesla and the Obama Administration, to protect campaign financier Elon Musk. Jeff Sessions needs to hire a [lawyer](#) from outside the [government](#) appointed by Sessions as [attorney general](#) or, in the United States, by [Congress](#) to investigate a government official for misconduct while in office. A reasoning for such an appointment is that the governmental branch or agency may have political connections to those it might be asked to investigate. Inherently, this creates a [conflict of interest](#) and a solution is to have someone from outside the department lead the investigation. The term "special prosecutor" may have a variety of meanings from one country to the next, from one government branch to the next within the same country, and within different agencies within each government branch. Critics of the use of special prosecutors argue that these investigators act as a "fourth branch" to the government because they are not subject to limitations in spending, nor do they have deadlines to meet.
247. Attorneys carrying out special prosecutor functions in either federal or state courts of the United States are typically appointed [ad hoc](#) with representation limited to one case or a delineated series of cases that implicate compelling governmental interests, such as: Fraud (SEC, Complex, Cybercrime, Mortgages), Public Corruption, Money Laundering & Asset Forfeiture, Civil Rights, Racketeering Across State lines, Environmental Protection, National Security, Tax & Bankruptcy, Organized Crime, or International cases where the US is a party). [\[1\]](#) Special prosecutors in courts of the [United States](#) may either be appointed formally by one of the three branches of government in a criminal proceeding, or when dictated by federal law or regulation, or informally in civil proceedings, and also by one of the three branches of government, or by a non-governmental entity to prosecute alleged unlawful conduct by government agents. When appointed by the [judicial branch](#) to investigate and, if justified, seek indictments in a particular judicial branch case, the attorney is called special prosecutor. [\[2\]](#) When appointed/hired particularly by a governmental branch or agency to investigate alleged

## Page 36 - EXHIBIT 93 – Case # 22-cv-1107-TSH, Norcal 9th District

misconduct within that branch or agency, the attorney is called independent counsel.<sup>[3]</sup> When appointed/hired by the state or political subdivision to assist in a particular judicial branch case when the public interest so requires, the attorney is called special counsel.<sup>[3]</sup> When appointed/hired by an organization, corporation, person or other non-governmental entity to investigate and, if justified, seek indictments against one or more government officials for acts committed under color of law, the attorney may be called special counsel or special prosecutor. The term is sometimes used as a synonym for independent counsel, but under the former law authorizing the independent counsel, the appointment was made by a special panel of the United States Court of Appeals for the District of Columbia Circuit. The Ethics in Government Act expired in 1999, and was effectively replaced by Department of Justice regulation 28 CFR Part 600, under which Special Counsel Patrick Fitzgerald was appointed to look into the Plame affair. The Tesla Motors and Elon Musk Case requires a Special Prosecutor.

248. ELON MUSK AND TESLA FACE CRIMINAL FRAUD CHARGES BY FEDS! MUSK FINALLY EXPOSED! ( <https://www.marketwatch.com/story/sec-sends-subpoena-to-tesla-in-probe-over-musk-tweets-2018-08-15-171034414> )

251. Elon Musk's Incredible Smoke And Mirrors Dance. Elon Musk's untraceable money laundering and political bribery scam has now been exposed. It is called an "Invisible Bridge". It is the way that covert funds move through a secret conduit of close associates and family members. Elon Musk is at the head of the conduit and his mother, brother and associates Tim Draper, Steve Jurvetson, and George Soros round out the other tentacles. With operational links through Wells Fargo Bank, Silicon Valley Bank and Goldman Sachs, the scheme is perfected corruption. The "bridge" uses a combination of fake tax evasion charities and business assets, passes through Senator's pockets and is never visible to the FBI, the FEC and the SEC unless they have very good agents assigned to the matter.

252. NTSB, DOJ, SEC and FEC have been blocked from action by DNC lobbyists.

253. The overt and arrogant Musk misdeeds have now become "obvious and RICO-violating..."

254. He is protected by Senators Reid, Harris, Pelosi and Feinstein. They are beneficiaries of the scam. Musk's self promoting, narcissistic, multi-billion dollar, self-aggrandizing PR hype. Elon Musk exists because he bribed DNC politicians including Obama, Clinton and Senators Feinstein, Reid, Boxer, Harris, Spier and Pelosi to give him free taxpayer cash and government resources from the Department of Energy and the California political tax pool. This is proven

Page 37 - EXHIBIT 93 – Case # 22-cv-1107-TSH, Norcal 9th District

when you follow-the-money and the insider trading, stock ownership and crony payola kick-backs.

255.He is protected by the Clinton and Obama organizations along with most of the DNC. He finances these politicians via this scheme.

256.The U.S. Dept of Energy (DOE) has been covering-up organized crime activities at DOE in which DOE funds are being used as a slush-fund to pay off DNC campaign financiers and to pay for Fusion-GPS attacks on Silicon Valley business competitors.

257.DNC campaign financiers and DOE staff share stock market holdings with each other under family trusts, shell corporations and layered Goldman Sachs accounts. The deal was: Obama funds Tesla, Musk conduits campaign funds to Obama, top Obama staff profit off of insider Musk stocks.

258.Elon Musk is a criminal, a mobster, an asshole, a balding fake-hair wearing, plastic surgery-addicted, bi-sexual douchebag, woman-abusing, sex addicted, tax evader.

259.Musk exploits poor people and child slaves in the Congo and Afghanistan to mine his lithium and Cobalt. Look up this phrase on the top search engines: “child labor electric car batteries”

260.Musk spends billions per year to hire Russian trolls, fake blogger fan-boys and buy fake news self-glory look-at-me articles about himself. Musk thinks he is the 'Jesus' of Silicon Valley and he will do anything to make the public think so. Musk is insecure because his father was abusive and his “trophy wife” Mother is overbearing so he developed sociopath-like mental issues.

261.Musk has been professionally diagnosed as a 'psychotic narcissist.

262.Musk uses shell companies and trust funds to self-deal, evade the law and hide his bribes and stock market insider trading. His brother ran Solar City and is now under federal investigation for securities fraud.

263.A huge number of Tesla drivers, per capita, have been killed; pedestrians and oncoming drivers have also been killed, and Musk covers it up.

264.The DNC and the MSM refuse to allow any articles about Musk's crimes to be printed because they benefit from Musk's crimes.

265.VC's Tim Draper and Steve Jurvetson are so fanatical about not being embarrassed from a Tesla bankruptcy that they will pump the TSLA stock and threaten anybody who might disclose the Musk misdeeds.

266.Peter Thiel, a Musk ‘boyfriend’ also protects Musk. Musk, and his cronies, use Palantir, Google and related software to scan the entire internet every few minutes for any occurrence of the words: “Musk”, “Tesla” or “Tesla Fire”. They send trolls and fake bloggers (Many of them

Page 38 - EXHIBIT 93 – Case # 22-cv-1107-TSH, Norcal 9th District

Russian) to put pro-Musk comments on the comments section of any blogs or articles discussing those topics and try to flood out the truth about Musk. In EVERY blog that you read that mentions 'Musk', at least 1/3 of the comments have been placed there by Musk's paid shills.

267. There are no "Tesla Fan Boys". All of the fanatic Tesla comments on the internet are Musk's, Thiel's, Jurvetson's and Draper's fake fanboy trolls. Musk, himself, stays up late at night pretending to be a 'Tesla Fan Boy' on blogs.

268. Main Stream DNC-biased News organizations who refuse to cover the story reveal themselves as shills for Musk

269. The Silicon Valley Mafia promotes Musk as a "Tech God" leader but, in reality Musk is the same kind of "Leader" as Charles Manson, Jim Jones, David Koresh, Swami Rajneesh and Al Capone.

270. His own people have sued him for fraud and lies once they realized that Musk-ism and Scientology had so much in common.

271. The 'Silicon Valley Mafia; cartel of frat boy sociopath venture capitalists like Steve Jurvetson, Tim Draper, Eric Schmidt, et al; threaten those who do not support the cult of Tesla or their political candidates.

272. Musk holds the Silicon Valley record for getting sued for fraud by his investors, wives, former partners, employees, suppliers and co-founders.

273. Elon Musk has gone out of his way to hire hundreds of ex-CIA and In-Q-Tel staff and assign them to "dirty tricks teams" to attack his competitors and elected officials who Musk hates.

274. Musk and his culture are being sued for abuse to women and blacks and the Unions hate him for lying to them.

275. <https://stopelonfromfailingagain.com> reveals even more Musk lies.

276. Musk never founded his companies. He took Tesla away from the founder: Marty, in a hostile take-over!

277. Musk's "Starlink" satellites are domestic spy and political manipulation tools - never get your internet from anything SpaceX has launched. SpaceX is entirely a domestic spy operation.

278. Musk's "Mars" scheme is just a PR distraction to keep the news from looking too close at SPACEX domestic spying satellites.

279. The same kind of EMF radiation proven to cause cancer from cell phones exists in massive amounts in a Tesla.

280. Musk can't fix a car or build a rocket and has almost no mechanical skills.

Page 39 - EXHIBIT 93 – Case # 22-cv-1107-TSH, Norcal 9th District

- 281.If you pull a report of every VIN# of every Tesla ever built and cross reference that with insurance, repair and lawsuit records you will find that the "per volume" fire, crash, death and defect rate is THE WORST of any car maker in history! Musk's lobbyists have bribed DOT and NHTSA to stall safety inspections.
- 282.NO COMPLETE UNCOMPROMISING SAFETY REPORT ON TESLA CARS HAS EVER BEEN PUBLISHED but we have a copy of a hushed up report that would put Tesla out of business.
- 283.Musk's 'Autopilot' system is a scam to get government cash BUT IT NEVER WORKS. The Tesla 'Autopilot' has crashed into police cars, pedestrians, swamps and driven owners over cliffs.
- 284.Musk is a lying con artist and partners with Goldman Sachs to rig the stock market. Sachs has a dedicated team of 18 men who rig stocks and valuation bumps for Musk.
- 285.The "Silk Road" Cocaine and Murder-For-Hire website was created at Musk's SpaceX
- 286.Musk's In-Q-Tel staff ran two transport planes filled with drugs; listed as "Cocaine 1" on FAA records.
- 287.Senators Dianne Feinstein, Harry Reid, Nancy Pelosi, Kamala Harris and their associates own the stock in Tesla Motors and/or it's suppliers and mining companies. That is why they criminally help cover-up investigations of Tesla!
- 288.All of this was reported, in writing, to James Comey, Patricia Rich and David Johnson at the FBI.
- 289.Tesla and Solyndra sit on the same land and share staff, contracts and lobbying. California politicians own parts of both companies.
- 290.Musk took over Tesla Motors in a hostile take-over in order to exploit lithium, cobalt and other mining corruption deals for his business partners.
- 291.The 'lithium' in Musk's horrifically miss-engineered lithium ion batteries cause wars in the Congo over mining corruption.
- 292.Afghanistan and Bolivian mobsters benefit from the corrupt mining deals involved with mining lithium and cobalt for Elon Musk's batteries.
- 293.Elon Musk opened a factory in China to try to avoid American worker safety laws because all of the labor cheats and safety violations he had engaged in, in America, were catching up to him. He neglected to provide adequate worker safety to quarantine for the coronavirus, though.
- 294.Elon Musk's Lithium ion batteries are insider trading-owned by ex-CIA boss Woolsey and DOE Boss Chu and they engaged in extreme conflict-of-interest to help Musk.

Page 40 - EXHIBIT 93 – Case # 22-cv-1107-TSH, Norcal 9th District

295. Elon Musk's Lithium ion batteries excrete chemicals that mutate fetuses when they burn.
296. Elon Musk's Lithium ion batteries destroy your brain, lungs and nervous system when they burn.
297. Elon Musk's Lithium ion batteries kill the factory workers who make them.
298. Elon Musk's Lithium ion batteries cause Panasonic to be one of the most corrupt companies in the world.
299. Elon Musk's Lithium ion batteries poison the Earth when disposed of.
300. Elon Musk's Lithium ion batteries can't be extinguished by firemen because water makes them explode even more and then explode again hours later.
301. Elon Musk's Lithium ion batteries have chemical dendrites and deposition massing issues (revealed by X-Ray analysis) which makes them more and more likely to explode as they age.
302. Elon Musk's Lithium ion batteries poison firemen when they burn.
303. Elon Musk's Lithium ion batteries are based on criminally corrupt mining schemes like URANIUM ONE.
304. Elon Musk's Lithium ion batteries have over 61 toxic chemicals in them.
305. Elon Musk's Lithium ion batteries come from an industry that spends billions on internet shills and trolls that they hire to say all other forms of energy
306. Elon Musk's Lithium ion batteries are insider-trading owned by corrupt U.S. Senators who are running a SAFETY COVER-UP about their dangers.
307. Apple products with lithium ion batteries have been exploding and setting people on fire.
308. Over time the chemical dendrites, or deposits, inside each battery grow worse and increase the chances of explosion as they age - LITHIUM ION BATTERIES BECOME MORE AND MORE LIKELY TO EXPLODE AS TIME GOES ON AND AS THEY AGE. This is not a theory. This is a scientific fact. That is why you hear about more and more lithium batteries catching fire and blowing up. Additionally, scientists also speculate that the increasing presence of low energy nuclear background energy and wifi energy in the environment is making lithium ion batteries explode more often lately. This is upheld by the increasing number of FAA reports about commercial airline cabins suddenly “filling up with toxic smoke” as some lithium ion battery explodes in someones overhead luggage. As commercial jets go higher they lose the protection of the atmosphere and are subjected to more gamma (and other) radiation from overhead. This makes the already unstable lithium ion batteries on board blow up.

Page 41 - EXHIBIT 93 – Case # 22-cv-1107-TSH, Norcal 9th District

309. Tesla owner's had had more DUI's, abuse filings in divorce proceedings and crashes than any other car maker PER VOLUME. This makes Tesla the #1 car for douche bags and scummy people.
310. Tesla's own federal patent filing records confirm that Tesla batteries are as dangerous as this document reports.
311. Political activist George Soros owns part of Tesla Motors so that Soros can help conduit DNC cash.
312. The Obama Administration promised Silicon Valley oligarchs the market monopoly on lithium ion batteries and the sabotage of fuel cells in exchange for campaign financing and search engine rigging.
313. United States Senators that are supposed to protect us from these deadly products own the stock market assets of them so they protect them and stop the FDA, OSHA, DOT & NHTSA from outlawing them.
314. There have been thousands of defect reports filed on Tesla cars.
315. Tom Steyer is a notorious DNC financier. His partner, Margaret Sullivan ran, the federal USAID agency, USAID sent all of the DNC campaign financiers in Silicon Valley a federal 'report' from USAID that said there was "A TRILLION DOLLARS OF LITHIUM IN AFGHANISTAN" and promised to give those lithium mines, EXCLUSIVELY, to the Silicon Valley venture capitalists if they funded and web search manipulated the election for Obama to take over the White House. Plaintiffs have the documents proving this. In other words, a re-up of the Afghan War was caused by Elon Musk and it killed American soldiers so that Musk could buy more mansions and trophy wives.
316. If a Tesla battery gets wet it will explode and cause all of the other batteries to explode in a "cascade of explosions".
317. Water makes Tesla batteries explode.
318. In an accident, when a Tesla rolls over, molten metal & plastic can drip on & burn the occupants alive and seal them in molten metal.
319. Alkaline, NiCAD and hundreds of other battery chemistries DO NOT have all of these problems but Lithium Ion batteries get a monopoly because of politician insider trading ownerships.
320. Tesla Motors has caused far more deaths and injuries than the world generally knows about.
321. A recent fire on U.S. Highway 101 near Mountain View, CA, burned the driver alive and killed him.

Page 42 - EXHIBIT 93 – Case # 22-cv-1107-TSH, Norcal 9th District

322. In Florida two kids died in a Tesla, burned alive, screaming in agony.
323. A man died in agony in a Tesla crash in Malibu that set Malibu Canyon on fire.
324. A young woman, at the start of life, and her boyfriend were burned alive in their crashed Tesla.
325. There are many more deaths and crashes than you have seen in the Main Stream News (MSN)  
The deaths and the cover-ups are endless.
326. Senators Dianne Feinstein, Harry Reid, Nancy Pelosi, Kamala Harris and their associates own the stock in Tesla Motors and/or it's suppliers and mining companies and they cover-up and halt investigations and laws designed to save the public.
327. Elon Musk's Lithium ion battery partners spend over \$1B a year to shill and troll hype about lithium ion batteries and cover-up the dangers.
328. Lithium ion EVs are more prone to battery fires.
329. Experts say that their lithium-ion batteries can fuel hotter fires that release toxic fumes and are more difficult to put out. Lithium ion fires keep reigniting which explains why it takes so long and requires copious amounts of water or foam (it is an electric fire, after all) to smother the flames.
330. Tesla employee Bernard Tse and his team warned Elon Musk about these dangers in 2008 and they got fired and/or warned to "say nothing" by Musk.
331. Three top Tesla engineers died in a plane crash next to Tesla offices in San Carlos after two of them agreed to become whistle-blowers. Another whistle-blower has suggested they were killed in a "Boston Brakes" hit-job.
332. The DNC bosses, Congress people and federal executives own the stock in lithium, Solar and EV markets and use kickbacks from those markets (Especially via convoluted campaign finance laundering via Elon Musk) to finance the DNC.
333. The DNC bosses and Musk use character assassination as their main political tool against any member of the public who speaks out against their felony stock market scams and PizzaGate-like scandals. The Harvey Weinstein reports by Ronan Farrow show that they have teams of hired goons that they pay to destroy people's lives.
334. Musk uses Black Cube, Mossad, In-Q-Tel, Stratfor, Gawker Media, Gizmodo Media, Media Matters, David Brock, Sid Blumenthal, NY Times, Google servers, Facebook servers, Podesta Group, Perkins Coie, Covington & Burling and a host of "media assassins".
335. Musk buddies: Gawker and Gizmodo Media set-up the attack stories and, in paid partnership with Google, Google kicks their attack links around the globe, in front of 8 Billion people,

Page 43 - EXHIBIT 93 – Case # 22-cv-1107-TSH, Norcal 9th District

forever. Google locks the attack articles of its enemies on the front top search results of Google search results forever, on purpose! Google and Musk are partners-in-crime.

336.Larry Page steals technology for Google and Musk meets with Larry Page to advise him on which technologies to steal and how to bypass FEC laws.

337.Musk has exceeded FEC campaign finance limits by billions of dollars via “in-kind” services.

338.Had the full scope of these facts been acted on during the Obama Administration, Barack Obama would have become the first modern sitting President to have been arrested in the White House. Barack Obama was fully aware of these schemes, crony payola deals and corruption crimes and discussed the implementation of these crimes, daily, with Rahm Emanuel, David Plouffe, Steven Rattner, Robert Gibbs, John Podesta, David Axelrod, Eric Holder and Jay Carney in the Oval Office.

339.THIS corruption involves TRILLIONS of dollars of corrupt mining deals, automotive and energy monopolies!

340.THIS is why the federal budget analysis reports are showing TRILLIONS of dollars of 'untraceable' losses from the United States Treasury from 2006 up to today!

341.THIS is why a large number of reporters, whistle-blowers and prosecutors suddenly, and mysteriously turned up dead!

342.The company that Elon Musk built to usher in the electric-car future might not have enough cash to make it through the calendar year without stock markets scams being used to keep it alive.

343.Tesla again fell far short of its own production targets for the mass-market Model 3 sedan

344. Another person died in a crash involving its assisted-driving feature.

345.Musk entered into a public dispute with federal safety regulators.

346.Tesla's once high-flying stock, buffeted by a downgrade from credit analysts, has dropped 24 percent from its peak in September but Silicon Valley Vc's will pump it up to save face.

347.No one has raised or spent money the way Elon Musk has; Nor has any other chief executive officer of a public company made a bankruptcy joke on Twitter at a time when so much seemed to be unraveling.

348.Tesla is going through money so fast that, without additional financing, there is now a genuine risk that the 15-year-old company could run out of cash in 2018. The company burns through more than \$6,500 every minute, according to data compiled by Bloomberg. Free cash flow—the amount of cash a company generates after accounting for capital expenditures—has been negative for five consecutive quarters. That will be a key figure to watch when Tesla reports

Page 44 - EXHIBIT 93 – Case # 22-cv-1107-TSH, Norcal 9th District

earnings May 2. Read the full story here: <https://www.bloomberg.com/graphics/2018-tesla-burns-cash/>

349. In years to come, we will all look back and wonder how so many people were taken in by this shyster, who makes Enron look honest.

350. One of Tesla's greatest strengths is its ability to monetize the patience and goodwill of its customers and loyal fans. The company is sitting on a staggering \$854 million in customer deposits as of the end of 2017.

351. Since Tesla sells its products direct to consumers, without relying on a dealer network, customer deposits are cash payments that essentially serve as interest-free loans—and these loans can stretch on for years. If Tesla were to go bankrupt, those deposit holders would likely be wiped out.

352. Tesla is holding customer deposits for two vehicles that aren't even in production yet: an electric Tesla Semi (\$20,000 deposit) and a next-generation Roadster (either \$50,000 down or the \$250,000 retail price paid up front to reserve a limited edition). Even customers interested in installing an array of solar roof panels or the company's Powerwall home battery must hand over \$1,000 to place an order.

353. Tesla doesn't break out deposit numbers by car, but the vast majority comes from \$1,000 reservations for the Model 3. When Musk first introduced the lower-priced sedan in March 2016, fans stood in long lines at Tesla stores. Two years later, the slower-than-expected pace of production means that most of the more than 400,000 reservation holders are still waiting. And new people appear to be joining the queue: As of April, the company reported "net Model 3 reservations remained stable."

354. There's an additional source of free money from loyal believers: An unknown number of customers have paid up for vehicle features—\$3,000 for "Full Self Driving" capability, for example—that Tesla thus far hasn't figured out or released to anyone.

355. Elon Musk cooked the books by emailing interested sales prospects and asked them to put a deposit down before each quarter ended so he could book their tiny deposits as fully transacted \$60K+ "sales" before each quarter closed.

356. Elon Musk and SpaceX are being sued by multiple employees for "lying about safety standards, safety records" and deadly safety defects.

357. The Elon Musk Tesla Money Laundering Board Of Directors is as full of fraud and corruption as Musk. Birds of a feather stick together and the Jurvetson, Draper, Musk, et al; clan of corruption runs deep. The Board of Directors can't operate their scam without the whole pack of thieves and liars in place. An outsider will break their swamp of tax evasion, Dark Money

Page 45 - EXHIBIT 93 – Case # 22-cv-1107-TSH, Norcal 9th District

political bribes, off-shore cash, self-dealing, book-cooking, real estate fraud, expense padding and other nefarious deeds.

358.Dianne Feinstein's family member: Herb Newman of Sausalito, California's HR firm: Newman Search (415 332-8425) has a company as of 1972 with the sole purpose of setting up investment bank deals with the People's Republic of China. Feinstein arranged for Newman to provide the staffing for Tesla and Solyndra. Dianne Feinstein has been under investigation for spy activities with China and her senior aide was arrested as a Chinese top spy. In 1973 Mr. Newman arrived in Canton at the invitation of the Chinese Council for the Promotion of International Trade. (CCPIT). He and his company MVTC were one of fifty businesses to be invited to the Canton Trade Fair held in Kwangchow China. In 1978 Mr. Newman founded China Investments and in partnership with California Trade Delegations both companies as members of the San Francisco Chamber of Commerce began taking US Corporations to China. Mr. Newman along with one of his associates at the time Mr. Darryl Schoon helped organize Senator Dianne Feinstein's first trip to China in conjunction with the San Francisco Chamber of Commerce. Herb Newman, Mart Bailey and Feinstein's Husband; Dick Blum are on intelligence agency watch-lists, and under electronic surveillance, for potentially corrupt deals with China, Tesla and Solyndra.

359.Dianne Feinstein's husband owns CBRE which owns the real estate contracts for both Tesla and Solyndra.

360.Dianne Feinstein's family owns interests in the construction companies hired by both Tesla and Solyndra.

361.Dianne Feinstein had her staff warn other California businesses away from using the NUMMI car factory in order to protect the real estate deal for both Tesla and CBRE, which is owned by her husband.

362.Tesla began real estate deals in multiple states and then cancelled them at the last minute, which got them sued for fraud and charged with "lying" to different communities. They started, and then pulled out of these different building (San Jose, Southern California, New Mexico, Etc.) deals, because CBRE and Feinstein were trying to leverage real estate profit exploitation using taxpayer funding.

363.Panasonic and Tesla have known for decades that the Panasonic 18650 batteries used in the Tesla suffer from multiple chemistry degradation defects which will almost always make them eventually explode or "go thermal". The defects include: 1.) LENR activation, 2.) Dendrite lengthening, 3.) Particle congealing, 4.) Chemistry evolution and other defects. The Tesla projects is, essentially, a failed product product dumping effort of a failed and dangerous battery product.

364.Elon Musk has demanded that his employees sign "loyalty pledges", "vows" and engage in Omerta's in order to keep the corruption details of Tesla from being exposed to the public.

Page 46 - EXHIBIT 93 – Case # 22-cv-1107-TSH, Norcal 9th District

365. Tesla insider Antonio Gracias is the mob boss insider at Tesla who arranges media hit-jobs on those who displease Musk.
366. The NHTSB has issued requests to Tesla for safety tests and data that Tesla never complied with. Instead, Tesla paid bribes, which were referred to as "fees" to avoid having to complete those tests. An independent group of outside investigators issued a damning safety report to the NHTSB demanding that Tesla be compelled to produce the safety tests in 2010 but Obama appointed NHTSB executives buried the report and protected Tesla in order to keep the connection between Obama's funding and Tesla protected. NHTSB boss: Strickland, an Obama insider, was confronted with this in Washington, DC and resigned from his job 48 hours later. NHTSB has still not acted on the severe Tesla safety defects that have been reported since 2009.
367. An SEC investigation of Musk uncovered horrific evidence of Musk corruption but the SEC could not report or act on it because Obama congressional bosses and lobbyists got the SEC investigation "limited" to only examine a single Twitter "Tweet" from Musk.
368. Elon Musk is protected by top DOJ, SEC, CFTC, FEC and other Obama left-over staff as well as 45 U.S. Senators and top Federal Reserve members and Goldman Sachs, who live in terror that exposure of the entire Elon Musk financial food-chain will topple the entire DNC Dark Money payola scam. This is the reason that Tesla can get away with so much obvious and overt corruption and still continue operations. Tesla Motors book-cooking, financial frauds and political payola conduits, if fully revealed, would change the course of political influence in America.
369. Elon Musk has been sued by a man that Musk called a "Pedo", yet Musk's own father has been accused of child sex abuse, racism and, indeed, got his own daughter pregnant!
370. Elon Musk's mother has been accused of being a "self-indulgent trophy wife" who Musk was trained by to be an arrogant elitist. Her hatred of black people was imbued on Musk who has been sued by black people at his company for "running a racist culture".
371. Elon Musk divorced the same woman twice because she knew his dirty little secret and threatened to out him if he did not keep the deal going. She was hired to "act" as his wife.
372. Musical artist Iggy Azalea was at a Musk Party, with other friends, who captured Elon Musk on video on drugs and in weird sex acts. Musk had Iggy's camera stolen at the party to hide the evidence but he did not get the other cameras and did not realize that some of those cameras placed their images and videos directly on the Cloud, where hackers acquired them.
373. With cover-up help from Eric Holder, Steven Chu, Obama, Valarie Jarret, DNC FBI agents, Perkins Coie, Covington and Burling, Wilson Sonsini, etc; sociopath Musk actually believes he is "untouchable" and that he can get away with anything. His downfall will be the same downfall of every narcissist sociopath oligarch throughout all of recorded history.

Page 47 - EXHIBIT 93 – Case # 22-cv-1107-TSH, Norcal 9th District

374. Elon Musk is a drug addict. A simple urine and blood test proves it. Musk's downfall and the downfall of John DeLorean are seeming to align.
375. Dianne Feinstein and Nancy Pelosi are violating the law protecting Tesla by withholding investigations and prosecutions? Why are they allowing American citizens to continue to die from the 1.) "sudden acceleration electronics defect"; 2.) "The failed Auto-pilot electronics defect" 3.) "The deteriorating and deadly lithium ion batteries" and 4.) numerous other defects widely documented in the news media and filed lawsuits?
376. Elon Musk exists because he bribed DNC politicians including Obama, Clinton and Senators Feinstein, Reid, Boxer, Harris, Spier and Pelosi to give him free taxpayer cash and government resources. This is proven when you follow-the-money and the insider trading, stock ownership and crony payola kick-backs.
377. The Energy Dept (DOE) has been covering-up organized crime activities at DOE in which DOE funds are being used as a slush-fund to pay off DNC campaign financiers and to pay for CIA/GPS Fusion-Class attacks on Silicon Valley business competitors.
378. DNC campaign financiers and DOE staff share stock market holdings with each other under family trusts, shell corporations and layered Goldman Sachs accounts. The deal was: Obama funds Tesla, Musk conduits campaign funds to Obama, top Obama staff profit off of insider Musk stocks.
379. Musk exploits poor people and child slaves in the Congo and Afghanistan to mine his lithium and Cobalt. Look up this phrase on the top search engines: "child labor electric car batteries".
380. The Silicon Valley Paypal Mafia promotes Musk as a "Tech God" leader but, in reality Musk is the same kind of "Leader" as Charles Manson, Jim Jones, David Koresh, Swami Rajneesh and Al Capone. His own people have sued him for fraud and lies once they realized that Musk-ism and Scientology had so much in common.
381. Musk holds the record for getting sued for fraud by his investors, wives, former partners, employees, suppliers and co-founders. Elon Musk has gone out of his way to hire hundreds of ex-CIA and In-Q-Tel staff and assign them to "dirty tricks teams" to attack his competitors and elected officials who Musk hates.
382. Musk and his culture are being sued for abuse to women and blacks and the Unions hate him for lying to them. <https://stopelonfromfailingagain.com> ( PER THE WAYBACK MACHINE Internet Archive) reveals even more Musk lies.
383. THIS corruption is what all of the big political scandals are about today!
384. THIS corruption involves TRILLIONS of dollars of corrupt mining deals, automotive and energy monopolies!

385.THIS is why the federal budget analysis reports are showing TRILLIONS of dollars of 'untraceable' losses from the United States Treasury from 2006 up to today!

386.THIS is why a large number of reporters, whistle-blowers and prosecutors suddenly, and mysteriously turned up dead!

387.THIS can all be proven in jury trial and in live televised Congressional hearings!

388.This is all being covered up because top State and Federal officials are in on it, own the stock in it and are so deeply involved in it that they could go to Federal prison when this all comes out.

389.The anxieties that lurk beneath the tremendous ambition of Tesla Inc. moved into the forefront in recent weeks. The company again **fell far short** ( <https://www.bloomberg.com/news/articles/2018-04-03/tesla-model-3-output-misses-forecast-as-musk-promises-progress> ) of its own production targets for the mass-market Model 3 sedan, another person **died in a crash** ( <https://www.bloomberg.com/news/articles/2018-03-31/tesla-says-driver-s-hands-weren-t-on-wheel-at-time-of-accident> ) involving its assisted-driving feature and Musk entered into **a public dispute** ( <https://www.bloomberg.com/news/articles/2018-04-12/tesla-withdraws-from-ntsb-crash-probe-over-autopilot-data-flap> ) with federal safety regulators. esla's once high-flying stock, buffeted by a downgrade from credit analysts, has dropped 24 percent from its peak in September.

390.There's a good reason to worry: No one has raised or spent money the way Elon Musk has. Nor has any other chief executive officer of a public company made a **bankruptcy joke** ( <https://twitter.com/elonmusk/status/980566101124722688> ) on Twitter at a time when so much seemed to be unraveling.

391.Tesla is going through money so fast that, without additional financing, there is now a genuine risk that the 15-year-old company could run out of cash in 2018. The company burns through more than \$6,500 every minute, according to **data compiled by Bloomberg** ( <https://notalotofpeopleknowthat.wordpress.com/2018/05/01/tesla-burning-cash/#methods> ) . Free cash flow—the amount of cash a company generates after accounting for capital expenditures—has been negative for five consecutive quarters. That will be a key figure to watch when Tesla reports earnings May 2.Read the full story here: <https://www.bloomberg.com/graphics/2018-tesla-burns-cash/>

392.In years to come, we will all look back and wonder how so many people were taken in by this shyster, who makes Enron look honest.A

393. lot of Musk's money has been extracted from suckers, who think he is God's gift, as Bloomberg reports:One of Tesla's greatest strengths is its ability to monetize the patience and

goodwill of its customers and loyal fans. The company is sitting on a staggering \$854 million in customer deposits as of the end of 2017.

394. Since Tesla sells its products direct to consumers, without relying on a dealer network, customer deposits are cash payments that essentially serve as interest-free loans—and these loans can stretch on for years. If Tesla were to go bankrupt, those deposit holders would likely be wiped out.
395. Tesla is holding customer deposits for two vehicles that aren't even in production yet: an electric Tesla Semi (\$20,000 deposit) and a next-generation Roadster (either \$50,000 down or the \$250,000 retail price paid up front to reserve a limited edition). Even customers interested in installing an array of solar roof panels or the company's Powerwall home battery must hand over \$1,000 to place an order.
396. Tesla doesn't break out deposit numbers by car, but the vast majority comes from \$1,000 reservations for the Model 3. When Musk first introduced the lower-priced sedan in March 2016, fans stood in long lines at Tesla stores. Two years later, the **slower-than-expected pace of production** ( <https://www.bloomberg.com/graphics/2018-tesla-tracker/> ) means that most of the more than 400,000 reservation holders are still waiting. 397. There's an additional source of free money from loyal believers: An unknown number of customers have paid up for vehicle features—\$3,000 for “Full Self Driving” capability, for example—that Tesla thus far hasn't figured out or released to anyone.
398. The consumer psychology that sees hundreds of thousands of people essentially extending an interest-free loan to a public company is unusual, to say the least. I think the phrase “more money than sense” rather sums it up
399. Apple and Google also named in US lawsuit over Congolese child cobalt mining deaths for Elon Musk's Tesla Cars. Dell, Microsoft and Tesla also among tech firms named in case brought by families of children killed or injured while mining in DRC. [I saw the unbearable grief inflicted on families by cobalt mining. \( https://www.theguardian.com/global-development/commentisfree/2019/dec/16/i-saw-the-unbearable-grief-inflicted-on-families-by-cobalt-mining-i-pray-for-change \) I pray for chan](https://www.theguardian.com/global-development/commentisfree/2019/dec/16/i-saw-the-unbearable-grief-inflicted-on-families-by-cobalt-mining-i-pray-for-change) [Elon Musk's cobalt extraction in DRC has been linked to child labour.](https://www.theguardian.com/global-development/commentisfree/2019/dec/16/i-saw-the-unbearable-grief-inflicted-on-families-by-cobalt-mining-i-pray-for-change)
400. A landmark legal case has been launched against the world's largest tech companies by Congolese families who say their children were killed or maimed while mining for cobalt used to power smartphones, laptops and electric cars, the Guardian can reveal.
401. Apple, Google, Dell, Microsoft and Tesla have been named as defendants [in a lawsuit filed](http://iradvocates.org/sites/iradvocates.org/files/stamped%20-Complaint.pdf) in ( <http://iradvocates.org/sites/iradvocates.org/files/stamped%20-Complaint.pdf> ) Washington DC

by human rights firm [International Rights Advocates](http://www.iradvocates.org/) ( <http://www.iradvocates.org/> ) on behalf of 14 parents and children from the Democratic Republic of the Congo (DRC). The lawsuit accuses the companies of aiding and abetting in the death and serious injury of children who they claim were working in cobalt mines in their supply chain.

402. The lawsuit argues that Apple, Google, Dell, Microsoft and Tesla all aided and abetted the mining companies that profited from the labour of children who were forced to work in dangerous conditions – conditions that ultimately [led to death](https://www.theguardian.com/global-development/commentisfree/2019/dec/16/i-saw-the-unbearable-grief-inflicted-on-families-by-cobalt-mining-i-pray-for-change) ( <https://www.theguardian.com/global-development/commentisfree/2019/dec/16/i-saw-the-unbearable-grief-inflicted-on-families-by-cobalt-mining-i-pray-for-change> ) and serious injury. The families argue in the claim that their children were working illegally at mines owned by UK mining company Glencore. The court papers allege that cobalt from the Glencore-owned mines is sold to Umicore, a Brussels-based metal and mining trader, which then sells battery-grade cobalt to Apple, [Google](https://www.theguardian.com/technology/google) ( <https://www.theguardian.com/technology/google> ), Tesla, Microsoft and Dell.

403. Other plaintiffs in the court documents say they worked at mines owned by Zhejiang Huayou Cobalt, a major Chinese cobalt firm, which the lawsuit claims supplies [Apple](https://www.theguardian.com/technology/apple) ( <https://www.theguardian.com/technology/apple> ), Dell, and Microsoft and is likely to supply the other defendants.

404. Another child, referred to as John Doe 1, says that he started working in the mines when he was nine. The lawsuit claims that earlier this year, he was working as a human mule for Kamoto Copper Company, carrying bags of cobalt rocks for \$0.75 a day, when he fell into a tunnel. After he was dragged out of the tunnel by fellow workers, he says he was left alone on the ground at the mining site until his parents heard about the accident and arrived to help him. He is now paralysed from the chest down and will never walk again.

405. Other families included in the claim say that their children were killed in tunnel collapses or suffered serious injuries such as smashed limbs and broken spines while crawling through tunnels or carrying heavy loads. The families say that none were paid any compensation for the deaths and injuries.

406. One of the central allegations in the lawsuit is that Apple, Google, Dell, Microsoft and [Tesla](https://www.theguardian.com/technology/tesla) ( <https://www.theguardian.com/technology/tesla> ) were aware and had “specific knowledge” that the cobalt they use in their products is linked to child labour performed in hazardous conditions, and were complicit in the forced labour of the children

407. It is charged that the Musk empire is an organized crime program that exists between Silicon Valley tech oligarchs, investment banks, U.S. Senators, government agency staff and White House staff who engage in these crimes.

Page 51 - EXHIBIT 93 – Case # 22-cv-1107-TSH, Norcal 9th District

408. That public officials knowingly participate in these crimes by failing to report their associates who engage in these illicit actions and by hiring suppliers who operate these illicit activities.
409. That the Musk empire suspects manipulate government funds for their personal profiteering at the expense of domestic citizen taxpayers like us.
410. That the Musk empire suspects operate a vast stock market manipulation program, as a core function of their operations, and those illicit deeds function at the expense of the public to render unjust gain to public officials.
411. That the Musk empire suspects contract a known group of lobbyists, corrupt law firms, unethical CPA's, corrupt investment banks and specialized corruption services providers to attack, defame, physically harm, character assassinate, black-list and/or kill those they dislike and they harmed many persons with those acts.
412. That the Musk empire suspects operate an Epstein-like sex-trafficking network of prostitutes and sexual extortion activities and locations for the engagement of said activities and for the bribery of cohorts via sex workers and that Musk was a personal associate of Jeffrey Epstein.
413. That the Musk empire suspects engage in electronic attacks and manipulations including hacking, election manipulation, media censorship and internet search results manipulation in order to mask their schemes.
414. That the Musk empire suspects engage in Lois Lerner-like, SPYGATE-like, VA whistleblower-like reprisal and retribution attacks using government agencies like SSA, DOJ, FBI, LSC, HUD, HHS, DOE, Etc
415. It is demanded that Elon Musk be arrested on RICO Racketeering, Anti-Trust, Tax Evasion, Bribery, and related charges!
416. Elon Musk had sex with a young non-age-appropriate rock and roll girl and got her pregnant.
417. Elon Musk dated anal sex advocate Gwyneth Paltrow who later told her friends that he was full of shit.
418. Elon Musk divorced one actress, then had to remarry her because she had the goods on him.
419. Video exists of Elon Musk at various sex parties.
420. Elon Musk dated Johnny Depp's girlfriend Amber Heard who thought that Musk was even more controlling than Johnny Depp.
421. The NUMMI car factory that Musk took over was first called, by Musk, in the media "non-functional". Even the two major car makers that were using it had abandoned it. Feinstein make Musk take it because here husband's company: CBRE Realty, managed the property around it.

Page 52 - EXHIBIT 93 – Case # 22-cv-1107-TSH, Norcal 9th District

422. Musk never made good on his promises to NUMMI workers or the Unions representing the NUMMI factory.
423. After getting an insane amount of exclusive free cash from the taxpayers, Musk flew workers in from overseas.
424. Multiple women have charged Musk for sexual abuse and factory misogyny.
425. Musk couldn't make it in college and bailed out.
426. Far more SpaceX rockets have exploded and fully failed than the public is aware of.
427. Musk said he would already have sent his buddies around the moon but many potential passengers have bailed out after they saw the due diligence on SpaceX lack of experience.
428. Musk, Draper, Page, Westly, Schmidt, Brin and other famous tech asshole billionaires have formally agreed to run a "cartel" to control news, information and industries.
429. Inside the Tesla that Elon Musk had SpaceX put in orbit is a "confession folder" that would destroy Musk if anyone went up and got it.
430. Elon Musk believes he could kill someone and not get in trouble because he has so many California Senator's, Tier one law firms and former White House staff protecting him.
431. Elon Musk is the Citizen Kane of the modern world. He thinks he is the Al Capone of Technology. He uses things that appear to be all "crunchy granola" on the surface to steal taxpayer subsidies with the help of corrupt politicians.
432. Aside from Musk's own personal dirty operations and orders, the largest facilitator of his crimes is the large group of men inside Goldman Sachs and JP Morgan dedicated to supporting his crimes and corruptions.
433. Through covert conduits, Elon Musk pays blogger James Ayre to shill his schemes online.
434. Musk's entire media plan is self-promotional aggrandizing and fake virtue-signaling to keep the news off his case.
435. The SEC made him quit but he just changed one letterhead graphic and nothing else. Musk still runs Tesla and the rest of the empire just like he always did.
436. Musk covertly funds abortion projects because he gets so many girls pregnant and refuses to use a condom.
437. Deutsche Bank is the other biggest player in the Musk Empire money laundering, political payola and corruption crimes.
438. Musk stole most of his designs from others, as proven by the U.S. Patent office and previous publications.

Page 53 - EXHIBIT 93 – Case # 22-cv-1107-TSH, Norcal 9th District

439. When Elon Musk's Hyper-loop crashes, it will turn all of the passengers into a bloody applesauce like nightmare.
440. Musk's 5G SpaceX Starlink Satellites could destroy the environment, will add to the cancer-causing radiation of the Earth and are to be used to spy on consumer's uses of the internet.
441. In lawsuits, Musk always pleads that he "has no money".
442. X-Ray analysis by over 40 major laboratories prove that Elon Musk's lithium ion batteries have severe and constantly degrading defects inherent in their construction. Musk has known about these dangers for decades but chose to work with Panasonic to cover it up.
443. Elon Musk lost a LEMON CAR lawsuit proving that his cars are poorly designed and manufactured.
444. Elon Musk's union negotiating tactics are: "delay, deny, defer and claim to be conducting a fake study..."
445. Elon Musk's take-over of Tesla from Martin Eberhardt, the actual founder, was based on an Obama Administration scheme to exploit Lithium mines in Afghanistan and Cobalt mines in the Congo, which Obama financiers had bought the rights to. Frank Guistra and Goldman Sachs helped come up with this scheme.
446. A famous article about SpaceX quotes a top Musk staff staffer saying Musk is a "liar".
447. A top SpaceX engineer has sued SpaceX for lying about rocket safety and says that Musk does not care about science, he cares about publicity.
448. Most of the "famous" people Musk hired, quit after seeing what a sham his operations are.
449. Jared Birchell, of Burlingame, is terrified that Musk will have him killed because he knows "where the bodies are buried", but he has to act demure and "stay-off-the-press-radar" for now to keep Musk from paying too much attention to him.
450. Every property that Musk owned has been bugged by government, news or competitor specialists.
451. Musk takes a number of drugs for mental issues yet he runs companies with products that can easily kill their users. Many think that he should be under closer federal supervision.
452. The U.S. Department of Energy PR Department has been ordered by Obama officials (who, shockingly, are still there even during the Trump Administration) to always hype up Musk because, WHEN Musk fully fails, it will prove that the Department of Energy funded him because **Obama ordered them** to and not *based on any* merits. Most every Applicant for DOE funds beat Musk on every merit EXCEPT CRONYISM!

Page 54 - EXHIBIT 93 – Case # 22-cv-1107-TSH, Norcal 9th District

- 453. Trump-hating Elon Musk wanted to nay say Trump by subjecting Tesla workers to COVID death by refusing to close plant
- 454. Musk uses his own workers to play deadly politics with their lives in COVID closure he refused
- 455. Musk totally lied about his capacity, ability and knowledge to make COVID ventilators in order to scam political funding
- 456. Musk sent snoring devices instead of ventilators and lied about those products in order to Virtue Signal for his own hype
- 457. Musk has had babies with many women in an Epstein-like master plan to seed the world with his DNA so that mini-Musk's will live on forever. Each ex-baby momma has been paid massive sums to keep quiet about his misdeeds.
- 458. Musk uses his many mansions to hide money and operate tax manipulation efforts.
- 459. The "Mainstream Media" is controlled by Democrat bosses who refuse to allow any negative news to be printed about Musk because Musk conduits funds to the DNC.
- 460. One of Musk's 'baby ovens' known as "Grimes" has been revealed to have been used as a "sex toy for Musk" by Grimes friends.
- 461. The U.S. Department of Energy has a federal policy of promoting Musk's hype because they are liable for criminal prosecution because Secretary of Energy Steven Chu and his staff helped organize Musk's embezzlement of taxpayer funded monies and insider-traded on that profiteering.
- 462. Failing Elon Musk tries to make Alameda County pay for his failed NUMMI factory by using COVID as an excuse!
- 463. The cooling fluid of Tesla cars leaks into the battery chamber and causes the batteries to explode and Musk ordered that defect covered up.
- 464. The touch-screen on the car has a huge number of programming defects in it that can crash the car
- 465. Musk has had unprotected sex with a number of women and is on a mission to get a number of women pregnant in order to "spread his DNA around".

**The Malignant Narcissism And Cartel Climate Of Elon Musk And His Billionaire Frat Boy Club**

At almost every juncture, Elon Musk has made egotistical decisions that lead to more failures. His behavior is that of a person who has no care or concern for the health, safety and welfare of the American people. Nothing could epitomize that more perfectly than his grotesque suggestions that we should shoot nuclear bombs off on Mars or that nobody will care that his Starlink Satellites are

designed to spy on the public. This would seem comical, and entirely unbelievable, if it had not actually happened.

In 2006 the many scientists told Elon Musk and his advisers of the high likelihood that a pandemic of lithium ion battery explosions would strike the nation and advised the incoming administration to take appropriate steps to reduce its impact. Obama officials hid the dangers because they owned stock in lithium and cobalt mines for those batteries, particularly in Afghanistan.

In November of 2007, the experts warned Obama that the country was likely to be afflicted with a devastating pandemic of lithium ion originating from Asian and Russian oligarchs.

In January 2009, the Obama administration was told by its own experts, Bernard Tse and his team who knew Tesla bosses, Sandia and others that the lithium ion batteries in Tesla cars had degrading chemistry which become a global pandemic of auto danger. Again, Obama chose inaction.

Obama and Musk have deprived Democratic-led regions of the country from receiving needed safety reviews of Tesla cars.

Over the year's since 2006, Americans working with the DOE, NHTSA, SEC and other groups accelerated warnings to Obama officials. These engineers and other science professionals were intentionally ignored in order to protect politicians stock market profits.

In these, [and any other examples](http://www.testimony111.com/), ( <http://www.testimony111.com/> ) Musk and his inner circle of White House and Senate insiders ignored or purged experts and other truth-tellers, and lied about, misrepresented, deflected or denied the dire threat to the American people posed by the lithium ion battery scam.

Considered in total, Musk and his regime have shown themselves to be incompetent, callous, malevolent and deeply cruel in their response to the Tesla safety issue crisis (as well as to a plethora of other issues).

But to merely document the Musk regime's deadly failures in response to the dangers of his companies is to ignore the most important question: What are Musk's and his advisers' underlying motivations?

This forensic question must be answered if we are ever to have a full accounting of the Musk Corruption, and see justice done for the voters, the dead tesla victims and those who will die in the future as well as the damage done to the broader American community.

The coordinated 'main-stream' media's preferred storyline that suggests Musk is simply incompetent doesn't add up because Musk has made the wrong decision every single time in terms of how crises like this are supposed to be dealt with. (i.e. Be consistent, transparent, factual, and credible.) It's increasingly not believable for the left-wing press to suggest that Musk has been distracted or inept during this crisis, in part because of the level of his uselessness has become so staggering.

Maybe Musk is vengeful. Maybe he wants to wreck the economy to create investment opportunities? He's under the thumb of a foreign entity? He wants to cause panic and cancel the November elections? He's a fatalist? Who knows. And honestly, the specific "why" isn't what matters now. What matters is asking the difficult questions and pondering what the Musk oligarchy is truly about, no matter what lurks in the shadows...

Now the press needs to shift some of its focus and ask the truly alarming questions about Musk and his motives. Because we still don't know why he essentially ordered his companies to embark on such sinister ventures involving slicing up brains; over-priced deadly cars for rich douche-bags; digging holes for billionaire hide-outs, launching domestic spy satellites and manipulating elections along with his boyfriend: Larry Page, etc...

Psychologist and psychotherapists have an answer: Elon Musk is a "**malignant narcissist**". Musk's mental pathologies inexorably compel him to hurt and defraud large numbers of people — including his own supporters.

Exports have looked at Musk's borderline personality disorders. They explain that sadism and violence are central to Musk's malignant narcissism and his decision-making about his self-promotion. They warn that Musk is abuser locked into a deeply dysfunctional relationship with the American people and that, like other sadists, Musk enjoys causing harm and suffering to any that do not recognize his "tech Jesus" self-proclaimed superiority.

Ultimately, all psychologists generally concludes that Musk is engaging in "**democidal behavior**" ( <https://www.taylorfrancis.com/books/9780203793756/chapters/10.4324/9780203793756-2> ) in partnership with Obama and Pelosi and cautions that the many dead and injured (so far) from the Tesla fires and crashes are not simply collateral damage from the Musk madness, but rather the logical outcome of Musk's apparent mental pathologies and the poor decisions that flow from them.

Musk is both denying responsibility by saying things such as, "I take no responsibility. We've done everything right." But at the same time, Musk is also sabotaging the efforts to stop the corruption in his empire. This is a very important aspect of Musk's behavior. Musk is not just deflecting blame onto others, he is actively interfering with the politicians' ability to do their job by controlling Senators with bribes. Musk is not just incompetent. He is actively engaging in sabotage against competitors and reporters who speak the truth about him.

You might wonder: How does someone with his type of mind reconcile claims like "I have total power" with "I take no responsibility"? He has said both things within a few days of each other. Well; That is a function of how the psychology of a malignant narcissist is structured. When Musk says things such as, "I have total power," that's the grandiosity. "I'm in total control" is a function of Musk's paranoia, where everything bad is projected outward. Therefore, anything negative or bad is someone else's fault. Bad things are 'other people' in Musk's mind. The grandiosity and "greatness" are all him. Musk's mind runs on a formula which bends and twists facts, ideas and memories to suit his malignant

narcissism. This is why Musk contradicts himself so easily. He lies and makes things up. His fantasies all serve his malignant narcissism and the world he has created in his own mind about his greatness.

Another component of Musk's malignant narcissism is sadism. That part of Musk's mind is more hidden. People such as Musk are malignant-narcissist sadists because they, at some deep level, are driven to cause harm to other people. Musk's life is proof of this. His pedo father and trophy wife narcissist mother demonstrate his roots. He enjoys ripping people off and humiliating people. He does this manically and gleefully. He has lied thousands of times. He threatens people online and elsewhere. Most psychologists believe that Elon Musk is also a sexual sadist, who on some basic level enjoys and is aroused by watching people be afraid of him. In his mind, Musk is creating chaos and instability so that he can feel powerful.

Professor of psychiatry and psychoanalyst Otto Kernberg called that phenomenon "omnipotent destructiveness." The bullying, the violence, the destruction, frightening people, humiliating people, getting revenge and the like — such behavior is what Elon Musk has done his whole life. It is who Elon Musk really is. Unfortunately, too many people are still in denial of that fact.

Musk has to create and control a field of negative corrupting energy around himself. For example, he pressures the scientific experts to bend the truth to his dreamworld during his press conferences. The scientists are basically Musk's hostages. The American people are hostages as well to Elon Musk's lies. Plaintiffs are being abused by him. Plaintiffs know that Musk is lying. Plaintiffs know that he's doing nothing to help us. Plaintiffs feel helpless to do anything to stop him. It is causing collective mental despair. It is not that all Americans are suckers or dupes, it is that Musk is a master at such cruel and manipulative behavior.

Elon Musk is a master at getting negative attention, and the more people he can shock and upset, the better.

Malignant narcissists like Elon Musk view other human beings as kindling wood to be burned for their own personal enrichment, media enlargement and hype expansion.

Follow the facts to the obvious and true conclusion. If all the facts show that Elon Musk (and his little boy buddies Larry Page, Eric Schmidt, John Doerr, Reid Hoffman, Steve Westly, etc.) is a malignant narcissist with these powerful sadistic tendencies, this omnipotent destructiveness, where he's getting pleasure and a sense of power from dominating people and degrading people and destroying people and plundering people and laying waste to people, both psychologically and physically, then to deny such obvious facts is willful ignorance.

When Musk is finally exposed, like Elizabeth Holmes and Theranos or ENRON, it will be glorious.

Rather than making a prediction as to Musk's specific actions when the emperor has no clothes, it is more helpful to describe the type of actions he will take. Rather than trying to say, "This is the move he'll make." Like in a relationship, Elon Musk is the abuser. He is the husband or father who is abusing

his partner or children or other relatives. The American people are like a woman who is leaving her abuser. She tells her abuser, “That’s it! I am done with you!” She has her keys in hand and is opening the door of the house or apartment to finally leave. What happens? The democidal maniac Elon Musk will attack us, badly. Make no mistake. Elon Musk is going to find a way to attack and cause great harm to the American people if he believes that he will be fully exposed. He will use his spy satellites, his media controls, his remote controlled cars, his stock market manipulation tools, his Goldman Sachs economic destruction team and more. Musk will strike back... unless the FBI finally arrests him first.

### **Elon Musk Has Stolen Every Bit Of Technology He Has Exploited**

In a shocking expose by [Paul Lienert](#), [Norihiko Shirouzu](#), and [Edward Taylor](#), they reveal that while Elon Musk is hailed (by his own PR and hype) as an innovator and disruptor who went from knowing next to nothing about building cars to running a car company, he swiped all of his technology from others.

His Tesla car, his hyperloop train, his tunnel digger, his 'brain chip' ...everything he has done was created by somebody else. The original founders of Tesla sued him for coming in and taking over the company.

Musk's record shows he is more of a fast learner who spies on other firms that had technology Musk lacked. Musk stole their most talented people, and then blew his competitors off the grid with anti-trust violating monopoly tactics.

Musk has been dropping hints for months that significant advances in technology will be announced as Tesla strives to get away from corrupt Panasonic and their awful toxic, exploding batteries.

New battery cell designs, chemistries and manufacturing processes are just some of the developments that would allow Tesla to reduce its reliance on its long-time battery partner, Japan’s Panasonic (which has been accused of bribery, product dumping and other illicit deeds), people familiar with the situation said.

“Elon doesn’t want any part of his business to be dependent on someone else,” said one former senior executive at Tesla who declined to be named. “And for better or worse - sometimes better, sometimes worse - he thinks he can do it better, faster and cheaper.” The problem is, Musk does his version of "better" by ripping everyone off and hiring moles and character assassins to go after any competitors that get in his way. Musk has been documented hiring Nicholas Guido Denton's tabloid empire (Gawker/Gizmodo/Jalopnik...) character assassination service to operate massive hit-jobs against his adversaries.

Tesla has battery production partnerships with Panasonic, South Korea's LG Chem and China's Contemporary Amperex Technology Co Ltd (CATL) that are expected to continue.

But at the same time, Tesla is moving to control production of cells - the basic component of electric vehicle battery packs — at highly automated factories, including one being built near Berlin, Germany and another in Fremont, California where Tesla is hiring dozens of experts in battery cell engineering and manufacturing.

“There has been no change in Plaintiffs relationship with Tesla,” Panasonic said in a statement provided by a company spokeswoman. Of course, Panasonic has to say that.

“Plaintiffs relationship, both past and present has been sound. Panasonic is not a supplier to Tesla; we are partners. There's no doubt Plaintiffs partnership will continue to innovate and contribute to the betterment of society.”

Tesla did not respond immediately to a request for comment.

Since he took over the fledgling Tesla company in 2004 in a hostile tactile take-over, Musk's goal has been to learn enough - from partnerships, acquisitions and talent recruitment - to bring key technologies under Tesla's control, people familiar with Tesla's strategy said.

They said the aim was to build a heavily vertically integrated company, or a digital version of Ford Motor Co's iron-ore-to-Model-A production system of the late 1920s.

“Elon thought he could improve on everything the suppliers did - everything,” said former Tesla supply chain executive Tom Wessner, who is now head of industry consultancy Imprint Advisors. “He wanted to make everything.”

Batteries, a big chunk of the cost of an electric car, are central to the Musk method. While subordinates like Bernard Tse have argued, for years, against developing proprietary Tesla battery cells, Musk continues to drive toward that delusional control-freak goal.

“Tell him ‘No’, and then he really wants to do it,” said a third former Tesla veteran.

Reuters reported in May that Tesla is planning to unveil low-cost batteries designed to last for a million miles. Tesla is also working to secure direct supplies of key battery materials, such as nickel, while developing cell chemistries that would no longer need to be as expensive and blood-mineral sourced as Musk's cobalt.

‘STRAIGHT FOR MARS’

Panasonic is partnered with Tesla at the \$5 billion Nevada “Gigafactory”, while CATL and LG Chem supply cells to Tesla's Shanghai factory, where battery modules and packs are assembled for its Model 3 sedan.

Page 60 - EXHIBIT 93 – Case # 22-cv-1107-TSH, Norcal 9th District

Panasonic recently said it is planning to expand its production lines in Nevada, which supply the cells that then go into the battery modules assembled next door by Tesla.

But the Nevada Gigafactory partnership almost didn't happen, according to two former Tesla executives. Musk ordered a team to study battery manufacturing in 2011, according to one former executive, but eventually partnered with Panasonic in 2013 because Musk failed to understand it.

Now, Tesla is testing a battery cell pilot manufacturing line in Fremont and is building its own vast automated cell manufacturing facility in Gruenheide in Germany.

The roller-coaster relationship with Panasonic mirrors other Tesla alliances.

During its development alliance with Germany's Daimler, which was an early investor in Tesla, Musk became interested in sensors that would help keep cars within traffic lanes.

Until then the Tesla Model S, which Mercedes-Benz engineers helped refine, lacked cameras or sophisticated driver assistance sensors and software such as those used in the Mercedes S-Class.

"He learned about that and took it a step further. We asked Plaintiffs engineers to shoot for the moon. He went straight for Mars," said a senior Daimler engineer said. Musk primarily uses the "Mars Project" as hype and BS to cover the fact that all of his Starlink, and other SpaceX launches, are almost exclusively spy satellites to monitor citizens and their internet interests.

Meanwhile, an association with Japan's Toyota, another early investor, taught him about quality management.

Eventually, stolen executives from Daimler and Toyota joined Tesla in key roles, along with talent from Alphabet Inc's Google, Apple, Amazon, Microsoft, as well as rival carmakers Ford, BMW and Audi.

## The Musk Spin

Most of Musk's personal and business relationships do not end well.

Tesla hooked up with Israeli sensor maker Mobileye in 2014, in part to learn how to design a self-driving system that evolved into Tesla's Autopilot.

"Mobileye was the driving force behind the original Autopilot," said a former Mobileye executive, who declined to be named.

Mobileye, which is now owned by Intel, also recognized the risk of sharing technology with a fast-moving startup like Tesla, which was on the brink of collapse at the end of 2008 and now has a market value of \$420 billion.

But Tesla and Mobileye had an acrimonious and public split after a driver was killed in 2016 when a Model S using the Autopilot system crashed.

At the time, Amnon Shashua, who is now Mobileye president and chief executive, said Tesla's Autopilot was not designed to cover all possible crash situations as it was a driver assistance system, not a driverless system.

The former Mobileye executive said there was no question of Tesla improperly using their technology.

U.S. tech firm Nvidia followed Mobileye as a supplier for Autopilot, but it too was ultimately sidelined.

"Nvidia and Tesla share a common strategy of developing software-defined vehicles powered by high-performance AI computers. Elon is very focused on vertical integration and wanted to make his own chips," said Nvidia's senior director of automotive, Danny Shapiro.

In addition to partnerships, Musk went on an acquisition spree four years ago, buying a handful of little-known companies - Grohmann, Perbix, Riviera, Compass, Hibar Systems - to rapidly advance Tesla's expertise in automation. Maxwell and SilLion further boosted Tesla's ability in battery technology.

"He learned a lot from those people," said Mark Ellis, a senior consultant at Munro & Associates, which has studied Tesla extensively. "He leveraged a lot of information from them, then put his spin on making it better."

Elon Musk is on-the-record spinning these facts about his cars into obfuscation:

The facts are clear. The following facts are now documented in numerous broadcast, and published, news reports; federal reports, university studies and investigation field reports. The FBI, GAO, NHTSA, SEC and Congressional authorities have now received all of the confirming evidence, in writing:

Tesla Motors batteries were promoted by those who wished to exploit the Afghanistan War for personal profit by controlling the Afghan lithium mining fields

Page 64 - EXHIBIT 93 – Case # 22-cv-1107-TSH, Norcal 9th District

Tesla Motors batteries blow up on their own

Tesla Motors batteries blow up when they get wet

Tesla Motors batteries fires cannot be put out by any common fire-fighting resources

Tesla Motors batteries set themselves on fire

Per MSDS documents, Tesla Motors batteries emit cancer-causing vapors when they burn

Tesla Motors Vehicles toxicity poison bystanders, nearby vehicular passengers, airline passengers in planes carrying said batteries in their holds, and environments where such incidents occur

Fires in Tesla Motors vehicles turn the entire car into a slag pile of melted metal and plastic and turn the bodies, inside the Tesla, into “unrecognizable lumps” vice president of production Greg Reichow and vice president of manufacturing Josh Ensign

Tesla Motors batteries blow up when bumped by the same level of car incident that would, otherwise, only dent a normal car bumper

In an accident, when a Tesla rolls over, molten metal and plastic can drip on and burn the occupants alive

Per MSDS documents, Tesla Motors batteries emit brain damaging chemicals when they burn

Per MSDS documents, Tesla Motors batteries emit chemicals, burning, or not, that can damage an unborn fetus

Per MSDS documents, Tesla Motors batteries emit chemicals that can cause lung damage

Per MSDS documents, Tesla Motors batteries emit chemicals that can cause liver damage

Per published lawsuits and news reports, the factories that make Tesla Motors batteries have been charged with the deaths, and potentially fatal illness, of over 1000 workers and the poisoning of nearby towns Panasonic, Tesla's battery partner, has been charged with corruption, toxic poisoning, dumping

and price fixing by, at least, two different nations, including the U.S.

Tesla Motors batteries become even more dangerous over time, particularly when tasked by electric transportation systems like Hover-boards and Tesla's.

Page 65 - EXHIBIT 93 – Case # 22-cv-1107-TSH, Norcal 9th District

Tesla Motors batteries were never designed to be used in automobiles. Tesla used non-automotive batteries in one of the most dangerous configurations possible

Tesla Motors occupants experience higher EMF radiation exposure than gasoline vehicle occupants

Elon Musk's Space X vehicles and Tesla Motors vehicles have both had a higher-than-average number of explosions. This has caused outside experts to doubt Musk's ability to place safety considerations over his need for hyped-up PR

Leaked Sandia National Labs and FAA research videos dramatically demonstrate the unstoppable, horrific, “re-percussive accelerating domino-effect” explosive fire effect of the Tesla Motors batteries

Tesla's own “Superchargers” and home 3-prong chargers have set Tesla's, homes and businesses on fire

Consumer rights groups contacted Erick Strickland, the head of the NHTSA, and charged him with a cover-up. He quit days later. The NHTSA then issued a safety investigation request to Tesla Motors, which would have more publicly exposed these dangers, but the safety investigation was never under-taken due to White House requests and lobbyist bribes, from Tesla, which got the investigation shut down

NEPA regulations for the Tesla NUMMI factory in California and the Nevada Tesla “Gigafactory” have been violated relative to environmental safety standards

Tesla Motors vehicles are not “Factory Built” “like Ford” builds cars, as Tesla professes. They are hand built in small volumes and subjected to numerous defects. Blogs have documented hundreds of defects, as listed by Tesla owners. Tesla has lost at least one LEMON CAR LAWSUIT for defective manufacturing

Tesla's “showrooms” are often “pop-up” retail storefronts that are in tight-proximity retail centers, putting it's neighbors at risk of total loss from fire damage

Tesla Motors vehicles have been hacked and taken over. Their doors, steering, listening devices and navigation have been taken over by outside parties. Multiple Tesla have suddenly swerved

Page 66 - EXHIBIT 93 – Case # 22-cv-1107-TSH, Norcal 9th District

off the road, over cliffs and into other vehicles, killing bystanders and Tesla drivers

Three Tesla top engineers and two competing senior executives, all of whom had whistle-blown on Tesla, who were in perfect health one day, suddenly died mysteriously the next day

Multiple employees, founders, investors, marital partners, suppliers and others have sued Tesla Motors, and/or it's senior executives for fraud

The above, and hundreds of additional safety issues with Tesla Motors vehicles, have been documented, yet investigations have been covered up, and/or manipulated by public officials with a financial and political investment in Tesla Motors and lithium ion batteries. This level of cover-up is said to be a felony-level crime

## The Musk Conundrum

The Musk empire has paid more bribes to politicians than almost any other modern entity. That is why no full investigation of the Musk scams has ever been completed. Google's Eric Schmidt and Larry Page have a bromance relationship with Musk and use the global resources of Alphabet to hide any negative news about Musk assets.

The 2008 Department of Energy Cleantech Crash proves that a federal agency was used as just one big slush-fund to pay-off political campaign financiers, operate insider-trading stocks and sabotage those financiers competitors using taxpayer-financed resources! We have used private investigator, FBI resources and deep AI research to reveal that all government staff working on Plaintiffs application were getting quid-pro-quo...they were on the take. (Can anyone point out to us EVEN ONE person who was in the DOE/White House loop who was not working for, invested in, getting a future job from or other wise conflicted?)

What do you do when The U.S. Government convinces you to invest millions of dollars, and your life, into one of their projects. Then their project turns out to be a scam where they had covertly hard-wired the upside to a couple of Senator's and their campaign financier friends.

The fix was in and the game was rigged to use a government program as a slush-fund for friends-with-benefits. We, and the public, got defrauded. Now the damages must be paid for, one way, or another. Every one of the insiders who did get government funding got it in the exact same size and order as their covert political campaign funding and stock market bribes to the deciders. Chamath Palihapitiya and other Silicon Valley insiders have now exposed the fact that Greylock, Kleiner, etc. are just a VC Ponzi Scheme! in this whole mess. Musk used crooked Senators to get his funds. Those Senators and government agency bosses were financed by, friends with, sleeping with, dating the staff of, holding stock market assets in, promised a revolving door job or government service contracts from, partying with, personal friends with, photographed at private events with, making profits by consulting for, exchanging emails with, business associates of or directed by; one of those business adversaries, or the Senators and politicians that those business adversaries pay campaign finances to, or supply political search engine manipulation services to. Elon Musk is notorious for getting Department of Energy money by bribing public officials and placing his friends: Steven Chu, Matt Rogers, Steve Westly, Steve Spinner's 'special friend', etc. on the staff of the Department of Energy and in the White House. We have FBI-class records, financial tracking, emails, stock market relay records and other forensic data that proves it.

We can swear, warrant, certify and prove these assertions in front of Congress in a live Congressional hearing or Civil Jury trial, given non-compromised legal backing. If you think you have bribed the same number of Senators, bought a President and taken over most of the Department of Energy like Musk did... go for it! In this day and age, with every citizen able to track every public figure, with FBI-quality databases, on their home computers, it might be a crash-and-burn but you are welcome to try. Lithium metals, and other rare earth mining materials, are monopolized by Elon Musk and his Silicon Valley Cartel, in rare-earth corrupt mining scams. Lithium's widespread use in cars is hindered by a challenging obstacle: upon multiple charge-discharge cycles, fractal filaments called dendrites always grow through the electrolyte from the negative to the positive electrode and short-circuit the battery from the inside, thus guaranteeing that Tesla Cars will eventually all explode. Musk and Panasonic have known this since 2007 (They are "dumping" the batteries via Tesla) and have paid U.S. Senators, who own stock in Tesla, to cover it up. The lithium fires and toxic vapors are a major safety concern because they have killed, poisoned and injured too many citizens.

Musk gets away with his scams because he pays U.S. Senators bribes with stocks in his corporations and has a thousand crooked Goldman Sachs investment bankers selling his hair-brained schemes to your parents pension funds. Tesla is known as "the official car of douche-bags". The safety defect cover-ups on the Tesla are extreme. Musk's narcissistic trophy-wife mom and his extremist father (who got his young sister pregnant) are thought to be the cause of Musk's racism and sociopath behaviors. He is the #1 crony capitalist government mooch in America and has received billions of dollars of your tax

Page 69 - EXHIBIT 93 – Case # 22-cv-1107-TSH, Norcal 9th District

money to help him buy his mansions, starlets and sex parties. His cars and rockets blow up, his tunnels are unsafe, his satellites spy on consumers and his brain chip company tortures small animals. He swiped all of his technology from someone else and has never come up with his own inventions.

## Elon Musk's Mental Problems

Hundreds of thousands of psychiatrists and psychologists have diagnosed Musk from his overt documentation of himself in social media. The conclusions they have reached are the following:

His mother is a self-obsessed narcissist who exploited herself as a “trophy wife”.

His father is a sex-obsessed abuser who got Musk’s sister pregnant and who has power and control issues.

His brother is a devious co-conspirator who helps Musk money-launder his business and charity facades. In a lawsuit Elon Musk says his Pedophile Accusation against a British Man was Protected Speech but he ignores the fact that his *Father (Musk’s Father) Had Sex With His Own Daughter* and got her pregnant.

This clan promotes and self-reinforces a mentally unhealthy life-style which is insulated from consequences by money, power and a walled garden information sphere which keeps negative information out of the family context.

Sociologists believe the Musk family is anti-black, pro-Apartheid and that they treat women as objects. This theory is born out by the fact that Musk’s companies hire only a tiny portion of blacks and women and that a number of lawsuits exist by women and blacks for abuse by Elon Musk’s companies. Also the legal papers by women against Musk family members are astonishing.

Moving beyond the family shield, Musk has surrounded himself with “Yes Men” and information bubble blowers like Larry Page, Steve Jurvetson, Tim Draper, Goldman Sachs, Birchell, and a little

army of other protectors who make sure that Musk only hears what a “deity” he is and that Musk never hears about what an ass-hole he actually is.

Musk has been diagnosed with the following issues:

- Drug addiction
- Sex Addiction
- Narcissism
- Psychopathic Process

Like Patrick Bateman in the feature film: “**American Psycho**”, psychopaths like Elon Musk can be intelligent and charming, while hiding a lack of empathy.

Given Musk’s ability to manipulate others, how easy is it for one to recognize his problem?

Self-professed psychopath Jacob Wells has revealed how he behaves in different situations and has listed questions that may help others identify whether Musk’s psychopathic traits.

Like Patrick Bateman in American Psycho, (played by Christian Bale) Musk can be intelligent and charming, while hiding a lack of empathy. Musk uses a carefully practiced methodology as he generally behaves to gain the trust of others and then use them to his own advantage.

Musk’s social tricks include superficial charm, a grandiose notion of self-worth, the need for stimulation and impulsiveness, pathological lying, the ability to manipulate others and a lack of remorse and empathy.

Musk holds his important positions in businesses thanks to his ruthless and impulsive attitude.

The Hare Psychopathy Checklist-Revised (PCL-R) is used as a diagnostic tool to determine where someone lies on the psychopathy spectrum, as not all psychopaths display all the traits. There are 20 items on the checklist, which score between zero and two points depending on whether someone matches a trait, to give a score out of 40. Musk scores on almost every point.

In the UK, users are deemed psychopathic if they score above 25, but in the US it is 30.

According to his employees and public observation, Elon Musk displays different traits on different days depending on his impulses and the recreational drugs he took on any given day, but common signs include superficial charm, a grandiose notion of self-worth, the need for stimulation and impulsiveness, pathological lying, the ability to manipulate others and a lack of remorse and empathy.

Experts claim people usually find psychopaths like Musk to be intriguing, but can’t put their finger on why.

This is down to Musk’s incongruous behaviour because psychopaths tend to do a lot of acting to deceive, or mimic normal reactions, sometimes changing their views and reactions quickly.

For example, Mr Wells said upon meeting someone, he tries to become 'the most interesting person they know' and presumably adopts suitable interests and responses to do this. Musk does this as well.

His response also gives away another common trait - a grandiose notion of self-worth - in that he can be the most interesting person in the room.

Page 72 - EXHIBIT 93 – Case # 22-cv-1107-TSH, Norcal 9th District

Musk occasionally tends to exhibit unconvincing emotional responses, with slip-ups including tone of voice or body language. He will also offer to do favours and tell false secrets to people to gain their complete trust. This may be because he is unable to understand emotions such as fear and love, but can mimic them well.

If you type Elon Musk into the Google or Yandex image search engine, you will see that the only images that Musk has allowed on the internet are practiced facade facial poses that are not natural in the common world.

Generally psychopaths' 'emotions' are shallow and short-lived and there is a manipulative ulterior motive to showing them.

He also displays insincere charm - another trait associated with psychopaths like Musk.

He says to his confidants: *'I keep secrets, and tell them fake secrets to further gain their trust, and once they trust me enough, I ask for favours, reminding them of the favours I did them. I can get literally anything from them, which is incredibly useful.'*

Musk typically displays an incredible ability to manipulate others and sometimes take pleasure in doing so. Musk, like most psychopaths often has an air of superiority about him, perhaps shown by Mr Wells' belief he can spot other psychopaths like Musk.

Expert Dr Hare warns that anyone can be duped during a short interaction with a psychopath like Musk. Writing on question and answer website Quora, Mr Wells, who claims to score 34 on the Hare checklist, said he deliberately changes how he acts depending on the situation, just like Musk.

He wrote: 'I usually present myself as normal at first. 'Some exceptions being academic settings where I try to present myself as either a good student or a genius (the first of which I am not, at all), dating settings where I present myself as being perfect, but unaware of it (both lies), or competitive settings where I act humble but intimidating (neither is true in this case either)'. Musk uses this tactic as well.

According to a survey by psychologist Kevin Dutton, people who hold certain jobs are more likely to display psychopathic traits, including CEOs and media personalities (Musk is both).

Musk likes to show a bit more of his true character by behaving 'a bit abnormally' and trying to become 'the most interesting person they know' by telling stories about himself to gain the person's trust.

At such a point they usually find him intelligent, eccentric, but fairly normal.

Self-professed psychopath Jacob Wells explained there is a series of questions psychologists can use to determine that Musk has psychopathic traits.

They include:

Does Musk lie to get what he wants? - YES!

Does Musk believe it is okay to manipulate others to get what you want? - YES!

How many of the following feeling does Musk you feel on a regular basis? Sadness, guilt, love, remorse, emotional pain, embarrassment. - VERY FEW!

Do Musk ever feel any of these emotions because other around him do? - NOT OFTEN!

Does Musk ever break into fits of rage for no reason? - YES!

Is Musk skilled at manipulating others? - YES!

Does Musk fake emotions? - CONSTANTLY

Does Musk acquire wives or girlfriends based on how they will help his public image? - YES!

Is Musk sexually confused by his relationships with Peter Thiel and Larry Page? - YES!

Does Musk think himself superior to others and promote himself as a tech deity? - YES!

If Musk becomes close to a person, he said he seeks to gain their trust completely. Musk seeks to temporarily gain their trust fully by doing and/or offering to do immense favours that nobody else would do.

He offers to solve their problems, in any way possible, and then asks them how far to take it.

Musk has offered to “get rid of” his enemies. Musk wants to get his enemies fired or trash their reputation or scare whistle-blowers into backing off.

This description near perfectly describes expected behaviour of a psychopath, who uses charm to disguise calculating moves in a bid to manipulate someone to their advantage.

Favours are not done to be kind, but as a way of controlling someone for personal gain and bonds and relationships are often superficial too.

Musk likes to tell politicians and other tech CEO's that he will “keep secrets”, and tell them fake secrets to further gain their trust, and once they trust him enough, he asks for favours, reminding them of the favours he did them or the political funds he covertly conducted.

In this way Musk can get literally anything from them, which is incredibly useful to him.

Between three and four per cent of senior positions are believed to be occupied by psychopaths.

Psychopathy is characterised by enduring antisocial behaviour, impulsivity, selfishness, callousness, and remorselessness. Famous psychopaths in films include Hannibal Lecter in Silence of the Lambs (played by Anthony Hopkins pictured) and Norman Bates in Psycho.

Gary D Conley, Rajeev Motwani and 3 Tesla employees blew the whistle on Musk and then they were found dead under mysterious circumstances. Did Musk have them killed?

## **How evil is Musk? What are his Machiavellian traits and signs of psychopathy**

A quiz recently swept the internet that claims to tell you just how 'evil' you are.

It measures Machiavellian, narcissistic and psychopathic traits to tell you whether you are 'occasionally vile' or 'decidedly dastardly' for example.

The quiz was created by BBC Future and inspired by questionnaires developed by psychologists Delroy Paulhus and Daniel Jones.

Page 74 - EXHIBIT 93 – Case # 22-cv-1107-TSH, Norcal 9th District

The quiz tells users just how 'evil' they are by asking a series of personality questions. Almost everyone that has taken the test while applying the questions to Elon Musk have come up with the same answer.

It measures the personality traits described as the 'dark triad.'

Machiavellianism is characterised by manipulation and exploitation of others, a cynical disregard for morality, and a focus on self-interest and deception.

Fictional character Frank Underwood, in House of Cards is a good example of a Machiavellian person, for example.

Narcissism is characterised by grandiosity, pride, egotism, and a lack of empathy and could perhaps be exemplified by the character Miranda Priestly in The Devil Wears Prada.

To do the quiz about Musk, users measure their own 'dark side' by answering questions about Musk's Machiavellianism, narcissistic and psychopathic tendencies, (examples shown) by either agreeing or disagreeing with statements such as: 'I use clever manipulation to get my way' and 'I hate being the centre of attention'

Psychopathy is characterised by enduring antisocial behaviour, impulsivity, selfishness, callousness, and remorselessness.

While extreme versions of these traits are sometimes associated with murderers, experts believe a combination of the 'dark' traits may help people succeed in life and reach a position of wealth and power, for example.

At the end of three pages of questions users receive a result, which while the creators warn shouldn't be considered a scientific measure of their personality, gives them an insight into their behaviour. The 'dark triad' results are shown on slider bars.

To complete the quiz, users measure their own 'dark side' by answering questions about their Machiavellianism, narcissistic and psychopathic tendencies, by either agreeing or disagreeing with statements such as: 'I use clever manipulation to get my way' and 'I hate being the centre of attention.'

At the end of three pages of questions - which take less than five minutes to complete - users receive a result. The creators warn that the test shouldn't be considered a scientific measure of a person's personality, but instead give them an insight into it.

Results include 'infrequently vile' - where someone mostly puts others before themselves – and 'moderately nefarious'. Almost everyone who runs the test using Elon Musk as the subject comes out with very frightening result!

## **From Little Elon To Big Douche-Bag – The Musk Life Cycle**

### **The forbidden Tesla timeline that Elon Musk does not want you to see:**

#### **1880**

Detroit Electric sells Electric cars commercially across the USA

#### **1900**

38 percent of US automobiles are powered by electricity, but as Henry Ford designed the much cheaper T-Ford, the electric cars began to disappear.

#### **1970**

The price of gasoline hits record because of a series of energy crises, so the interest in electric cars increased again.

#### **1971**

June, Elon Musk was born.

#### **1996**

General Motors produced an electric car called EV1 and leased it to customers.

#### **1999**

Elon Musk sold his company Zip2 and made \$22 million. He founded X.com that would become PayPal.

#### **2002**

October, Ebay, owned by Pierre Omidyar (Who finances Gawker Media and the Intercept) acquired PayPal and Elon Musk made \$165 million.

#### **2003**

General Motors canceled the lease program and removed the last EV1 from the streets. They said they couldn't sell enough of the cars to make the EV1 profitable.

Page 76 - EXHIBIT 93 – Case # 22-cv-1107-TSH, Norcal 9th District

July. Martin Eberhard and Marc Tarpenning founded and incorporated Tesla Motors. They had earlier made a feasibility study to see if they could make an electric car. They now made a feasibility study together with AC Propulsion to see if the batteries would work.

November. The 2 employees searched for a partner to build the rest of the car. Lotus became their choice. Lotus engineers, from England, agree to provide chassis of car.

**2004**

February. Ian Wright, who had met Martin Eberhard while on a plane, joined the company. They finished business plan 1.0. Ian later leaves Tesla in disgust when he realizes what they are up to

March. Starting a car company is expensive, so they began to look for outside investors. Silicon Valley VC's discuss having Elon Musk take-over Tesla and get rid of the founders

As of this date CIA, NSA, DIA, FBI, OSC, and other agencies, are now recording all communications between all Silicon Valley VC's and technology companies. Those recordings still exist today.

April. Series A funding where Elon Musk was the main investor. Elon Musk had earlier aligned with JB Straubel who had friends at AC Propulsion, and the company told Elon Musk to contact Tesla. Other investors included SDL Ventures and Compass Technology Partners. JB Straubel joined the company as employee number 5.

May. An early styling study began at Tesla.

June. A technology implementation study began. Afghanistan lithium contracts for Tesla's batteries are, by now, fully controlled by White House financiers.

July. Tesla had 9 employees and moved to an office in San Carlos, California. They also made a "mule" which is a car that doesn't reproduce but you can see if the concept works. To design Mule 1 they bought an old Lotus Elise.

October. The 15 employees began to design the drivetrain component.

November. They installed the drivetrain in the Mule 1 but company engineers say the entire system needs a re-design as it is "unsafe".

December. Tesla couldn't use the same design as the Lotus Elise, so they had a contest where Barney Hatt made the best design by copying most of the Lotus Elise.

**2005**

January. They made a 1/4 scale model in clay of the design Barney Hatt had made. Tesla had now 18 employees and they also took out Mule 1 for a test drive.

Page 77 - EXHIBIT 93 – Case # 22-cv-1107-TSH, Norcal 9th District

February. The now 23 employee strong company needed more money, so they made a series B funding. Not only Elon Musk invested more money, but also Valor Equity Partners. Tesla also opened an office in UK close to the Lotus office.

April-June. Tesla made a full-scale model in clay of the Tesla Roadster.

July. With 38 employees, they now tested a plastic model of the Roadster in a wind tunnel. It had problems with vector dynamics

August. Some of the 41 employees began developing a motor.

December. 63 employees and they began to build the Mule 2 in fiberglass.

## **2006**

January. A drivable Tesla Mule 2 was finished. It has many technical problems and it is illegal to drive it on the road.

April. The engineers thought the Roadster was finished so they made 10 engineering prototypes (EP), which compared to a Mule can (in theory) be produced.

May. 92 employees and they finished the first EP, called EP 1. Tesla raised a series C round led by Vantage Point Partners and Elon Musk.

July. Almost no-one knew that Tesla existed, until now when Tesla showed EP 1 and EP 2 in Santa Monica, California.

August. 100 employees. Tesla crash tests and technical reports reveal fire dangers. Tesla senior staff orders the reports shredded. them. Tesla had earlier crashed a few virtual cars, but they needed to know if the computers models were accurate. They also began to show the Roadster at events to market it.

August. Elon Musk, John Doerr, Rahm Emanuel, Robert Gibbs and David Axelrod discuss a quid-pro-quo scheme to advance money for the Presidential and Senate campaigns and get paid back in spades from TARP and Dept. of Energy "Loans", tax credits, stock perks and monopolies.

September. 120 employees. They made more tests, including radiated emissions and susceptibility testing. EMF emissions during charging were high and those reports were ordered shredded

October. They made a durability test, which consists of driving the Roadster on a cobblestone racetrack. The idea is to simulate 100,000 miles in 6 months. It would have taken much longer time to drive the same distance on a smooth road. Tesla realized that their computer models were inaccurate - the Roadster's transmission didn't survive the durability test.

November. 144 employees, and more tests, including driving through a saltwater bath.

December. They showed the EP 2 at the Los Angeles Auto Show.

## **2007**

Page 78 - EXHIBIT 93 – Case # 22-cv-1107-TSH, Norcal 9th District

January. Tesla brought the Roadster to Arvidsjaur, Sweden, to see if it could survive winter conditions.

February. 205 employees. Tesla began to build a validation prototype (VP), where they took everything they learned from the engineering prototype. Tesla says it will build a \$35 million plant in Albuquerque, to produce the Model S. They lied.

March. 230 employees and they finished the VP 1. Tesla senior staff and investors intensify private discussion with Dianne Feinstein and Richard Blum, who turn out to be the owners, managers, builders, staffing providers for Tesla's and Solyndra's land deals as well as the Senate and White House manipulators who rigged government funding for Tesla.

April. Raised more money - a series D round led by Elon Musk, Technology Partners, and Vantage Point.

June. Tesla's motor factory in Taiwan was finished and it began producing parts.

July. A new transmission was ready to try but tests showed that it had mounting issues.

August. Tesla finished the VP 10. CEO Martin Eberhard was forced out and replaced by Tesla investor Michael Marks, who would work as an interim-CEO until Tesla found a long-term CEO.

September. Tesla delayed the launch of the Roadster because they needed more time to test its durability.

October. It turned out that also the new transmission failed in the durability test. Tesla needed yet another transmission.

November. Martin Eberhard is fully forced out of the company after confronting Elon Musk regarding Musk's manipulations.

December. Interim CEO Michael Marks see the lies and leaves and is replaced by interim CEO Ze'ev Drori. Bernard Tse is contracted, by Tesla, to hide the Tesla battery explosion documents that have been uncovered.

December. Tesla says it will build it's factory in Southern California. They lied. The locals in Southern California say they felt “used” by Elon Musk in order to manipulate state and federal taxpayer dollar pitches.

As of this date: John Doerr/Kleiner Perkins, Eric Schmidt/Google, Elon Musk/Steve Jurvetson and Rahm Emanuel, Robert Gibbs, David Plouffe and other White House staff had an integrated stock, lobbying, profit and pass-along benefits and resources structure established between all of them.

## **2008**

January. 260 employees. The VPs survived the new tests, so the Roadster was finished - except for the transmission. Tesla accountants notify Musk of impending bankruptcy

Page 79 - EXHIBIT 93 – Case # 22-cv-1107-TSH, Norcal 9th District

March. Tesla began production of the Roadster.

April. Tesla can't get fleet orders or sell. Bankruptcy imminent. Short term cash put in by a idge financing led by Elon Musk and Valor Equity Partners.

May. Opened a retail store in Los Angeles, and they also finished a new transmission.

June. Opened a second retail store in Menlo Park, California, and they also delivered the first Roadster to the customers. Marc Tarpenning is sickened by the Musk plot and resigns from Tesla after getting a payout to keep quiet. The Model S was announced in a press release.

August. Franz von Holzhausen joined Tesla Motors as Chief Designer

October. Elon Musk became the CEO so as to control all information in and out of tesla and prevent disclosure of organized crime funding. Tesla bankrupt on paper but cooking books to hide financial disaster.

October. Tesla tells White House and DOE, In writing, it will sell 200,000 cars by 2010. Competing applicants all say that only 10,000 to 50,000 electric cars can be sold by then. First hard evidence of Tesla "cooking the books" found.

December. White House staff order Dept. of Energy to only fund companies from their "special list" of campaign backers

December. Google investors and executives become key shareholders in Tesla and agree to control all media to benefit Tesla

December. Tesla says it will build it's factory in San Jose, CA. It lied and it is discovered that all of the different failed factory location announcements have to do with Dianne Feinstein's husband's screwed up real estate deals.

November. Tesla revealed it had requested about \$400 million in loans for the Model S and powertrain manufacturing, under the Department of Energy's Advanced Technology Vehicles Manufacturing (ATVM) program.

## **2009**

March. Tesla unveiled two Model S prototypes at the Los Angeles headquarters of Tesla CEO Elon Musk's other startup, SpaceX. Tesla had decided to build a design studio at the factory. Tesla began taking reservations for the Model S. More than 500 people reserved a car in the first week.

June. Tesla gets approval for \$465 million in low-interest loans from the Department of Energy in exchange for campaign funding provided by Tesla and Google VC's. Tesla has written over 30 lies in it's Dept. of Energy Application, which Steven Chu is aware of, yet ignores, at White House request.

## **2010**

Page 80 - EXHIBIT 93 – Case # 22-cv-1107-TSH, Norcal 9th District

January. Tesla registered for an initial public offering of stock. Tesla uses "free" taxpayer loan to exploit taxpayer dollars to fake the value of it's stock while also receiving free tax credits which it sells at a profit in exchange for campaign funds, thus fully qualifying as an organized crime operation.

February- Dianne Feinstein and Her real estate mogul husband execute profit stock calls on the Solyndra and NUMMI/Tesla factory properties for personal profit in exchange for campaign funding

May. Tesla bought NUMMI with taxpayer money - the former Toyota and General Motors factory in Fremont (manipulated by Feinstein), California, for \$42 million. Toyota Motor and Tesla announced they will cooperate on electric vehicle development. Toyota purchased Tesla shares.

June. 800 employees. Tesla shares began trading on the Nasdaq Stock Exchange. They gained 40.5 percent.

## **2011**

Tesla works closely with Eric Holder to avoid public investigations

## **2012**

January. Tesla ended production of the Roadster to focus on the Model S. The roadster had already had multiple lithium battery fires which were covered up according to Tesla's Bernard Tse.

February. Tesla revealed the Model X - a small SUV and says it will go on sale in early 2014.

June. 2000 employees. The Model S was officially launched at the Fremont factory. Retail deliveries of the Model S started in the United States.

September. Unveiled the Supercharger network.

## **2013**

May. 4000 employees.

August. First Model S in Europe. Tesla formalizes relationship with Panasonic for batteries even as Panasonic is being charged with organized crime, price fixing, dumping and the deaths of thousands of factory workers and nearby neighbors to the factories. Tesla/Panasonic "Gigafactory" plan charged with exploiting Mexican workers with lethal work environment, toxic poisoning, nearby dangers to towns.

September. Shadow team of special investigators document over 30 federal crimes that Tesla, and Tesla investors, engaged in. Federal law enforcement is ordered to: "Leave Tesla alone, for now" by White House staff.

Musk is caught on recorded audio and video admitting that Tesla was broke when it applied for Dept. of Energy funds, thus breaking the Section 136 federal law for the ATVM and LGP loans.

## Page 81 - EXHIBIT 93 - Case # 22-cv-1107-TSH, Norcal 9th District

Hackers designate Tesla as The most easily hacked car in the world. Fears of eavesdropping and forced battery overload attacks. Chinese hackers have already penetrated all of the Model S Tesla's.

As of this date; 4 top Tesla staff and 6 related reporters and partners had died mysteriously.

## 2014

Chinese hackers have now fully scoured all of the servers of Silicon Valley technology companies and VC's. They learn about major Cisco vulnerabilities and use these back-doors to penetrate a large portion of the State and federal agencies of the USA.

Musk now has multiple people from In-Q-Tel working for him. In-Q-Tel is revealed as being involved in the drug trade including a seizure of 5 tons of cocaine on it's airplanes. Musk silent partner Eric Schmidt is helping fund, and promote, In-Q-Tel. The head of the largest digital drug Cartel: Silk Road, is found to be working for both Musk and Eric Schmidt. Comparisons between the Delorean cocaine issues and the Tesla drug issues are examined.

## 2015

Elon Musk is forced to take out loans from the same corrupt bankers he has been working with all this time because they are the only ones who are willing to participate. Musk launches a number of funding efforts as minimal demand for his products along with an extensive list of technical defects and explosions hits hard.

Multiple former employees are now leaking the dirt on Tesla. One is arrested, others turn states evidence, or whistle-blowers.

Musk announces that his toxic Nevada lithium ion factory, created with Senator Harry Reid, will try to dig up some lithium, from some nearby holes in Nevada, in order to try to distract from the fact that the majority of his lithium was always planned to come from countries his investors wanted invaded.

## 2020

As of this year, Elon Musk has had more PR and Marketing staff quit, or get fired, than almost any other company in history. Every PR and Marketing person that joins the company discovers the truth about Tesla Motors soon after and, unless they too are scumbags, heads for the door.

Martin Eberhard still privately refers to Elon Musk as a "sick thieving sociopath" if you bump into him at tech events.

## HOW ELON MUSK BECAME A CORRUPT LYING CRIMINAL SELF PROMOTING GUY WHO BRIBES CONGRESS

Elon's Lithium ion batteries: Cause wars in the Congo, Afghanistan and Bolivia; are owned by ex-CIA bosses; mutate fetuses when they burn; destroy your brain, lungs and nervous system when they burn; kill the factory workers who make them; cause Panasonic to be one of the most corrupt companies in the world; poison the Earth when disposed of; can't be extinguished by firemen; poison firemen; are based on criminally corrupt mining schemes like URANIUM ONE; Have over 61 toxic chemicals in them; come from an industry that spends billions on internet shills and trolls used to say all other forms of energy; are owned by corrupt U.S. Senators who are running a SAFETY COVER-UP about their dangers; Apple products with lithium ion batteries have been exploding and setting people on fire; over time the chemical dendrites inside each battery grow worse and increase the chances of explosion over time - LITHIUM ION BATTERIES BECOME MORE AND MORE LIKELY TO EXPLODE AS TIME GOES ON AND AS THEY AGE; "Bad Guys" have figured out to make them explode remotely; have their dangers hidden by CNN and MSM because pretty much only the DNC people profit from them; are the heart of 7

Elon Musk's stock market scam; the Obama Administration promised Silicon Valley oligarchs the market monopoly on lithium ion batteries and the sabotage of fuel cells in exchange for campaign financing and search engine rigging; United States Senators that are supposed to protect us from these deadly products own the stock market assets of them so they protect them and stop the FDA, OSHA, DOT & NHTSA from outlawing them.

The chart (above) we found on the internet was based on published news stories about Musk and reports from his staff. Musk, who hires Gawker and Gizmodo media to run hit-jobs on ex-employees, politicians and competitors; would certainly appreciate the humor in the send-up. While some of the things in Musk's back-ground sound 'nuts'; it is true that Musk's father had sex with Musk's sister and got her pregnant. It is true that Musk had to marry one of his wives twice because of 'issues'. It is true that Musk openly promotes his drug culture, Obama DID shut down part of NASA at the exact same time he gave Elon Musk the same part of NASA - at the same time Musk's boyfriends at Google got free NASA airfield use and free NASA jet fuel for their private sex party jets, etc, etc, etc....

Page 91 - EXHIBIT 93 – Case # 22-cv-1107-TSH, Norcal 9th District

Tesla reported \$84 million in selling, general, and administrative expenses for 2010. It is hard to pinpoint the allocation of these expenses, so you could estimate that their manufacturing employees labor costs accounted for approximately \$14 million. How much of that money was shipped off to political PAC organizations, though? Things at Tesla and SpaceX seem to get put in the accounting records costing way more than they do for anybody else. Many suspect that those mark-ups go right into Dark Money accounts to pay off Harry Reid, Dianne Feinstein and other insiders.

In 2010 Tesla had 686 non-manufacturing labor employees in the US. The connections to China were beginning to show, and not in a good way.

The Dianne Feinstein family investment group held that the UNCTAD World Investment Prospects Survey 2007-09 deemed China to be the top favored FDI destination. China deeply controls the Feinstein family according to Mart Baily (A partner of Dick Blum's) and Herb Newman, a family member of the Feinstein's who staffed the Tesla and Solyndra projects. While they helped get Musk's China 'factory' created, bureaucracy and corruption have proven to be problematic while doing business there. Bureaucracy and corruption hinder FDI by increasing costs of doing business, altering the allocating of resources, and wasting valuable time. Regarding bureaucracy, foreign businesses have reported that investment decisions and approvals by Asian government ministries can drag on for long periods of time for no apparent reason. Additionally, over the past few years, many Asian government officials have been condemned under anti-corruption laws. The U.S. Foreign Corrupt Practices Act (FCPA) has outlawed bribes to foreign government officials in order to gain business. Tesla seems to ignore such laws.

## **The Vendetta's And Attacks By The Very Vengeful Elon Musk**

Musk mocks authority, the law, public opinion and goes to extreme lengths to harm anyone who competes with him. Musk has an army of private investigators and tactical dirty tricks spy operatives from In-Q-Tel, Wilson Sonsini, Fusion GPS, Gizmodo/Gawker tabloids, and other shady groups, that he uses to put hit-jobs on reporters, whistle-blowers and competitors that make him sad.

Musk's position on the world is: "Nobody tells me "NO"!"

He has bought off every legislative aide, President and Senator and he expects blind allegiance.

In order to discourage, threaten and intimidate whistle-blowers and competitors Musk spends millions having them attacked with reprisal hit-jobs which include the following attack tactics:

- 1.) Defrauding Applicants via fake government requests to invest in rigged government contracts, with the help of Feinstein, Pelosi, Obama and Reid;**
- 2.) Placing moles and spying inside Applicant's companies;**
- 3.) Blockading legal counsel for plaintiffs;**
- 4.) Character assassination and sophisticated contracted defamation media attacks;**
- 5.) Offshore factory processed social media attacks;**
- 6.) Government benefits from SSA, HUD, etc, blockaded and manipulated with the help of Feinstein, Pelosi, Obama and Reid;**
- 7.) Jobs and venture capital funding blacklisting;**
- 8.) FOIA obfuscation for official government FOIA filings;**
- 9.) Arbitrary government deadline manipulation for SSA, DOE, HUD and other applications with the help of Feinstein, Pelosi, Obama and Reid;;**
- 10.) Creation of endless fake hurdles in agency applications (ie: DOE) to protect rigged "winners";**

- 11.) Toxic workplace poisonings like the Salisbury, Nalvany, Litvinenko poisonings;
- 12.) Workplace sabotage and obstruction of Applicant's companies with the help of Feinstein, Pelosi, Obama and Reid;;
- 13.) Media defamation attacks via gawker, Gizmodo, Jalopnik, Google, Youtube, etc.;
- 14.) Commercial employment database "lois lerner-ing" and red-flagging with the help of Feinstein, Pelosi, Obama and Reid;;
- 15.) Murders of peers (ie: Rajeev Motwani, Seth Rich, Gary D. Conley and 120+ others);
- 16.) Revenue blockades and internet income re-direction;
- 17.) Troll farm attack teams hired from Chinese attack farms;
- 18.) Fusion GPS, Media Matters, David Plouffe attack contracts issued targeting whistle-blowers;
- 19.) Manual search engine lock-in attacks on Google, YouTube, LinkedIn;
- 20.) U.S. patent office manipulation to blockade revenue;
- 21.) Honey-traps sent out targeting the whistle-blowers;
- 22.) Fake news tabloid empires created just for defamation attacks;
- 23.) Housing access and financing blockades created to reprisal harass whistle-blowers;
- 24.) Ongoing hacking of plaintiffs devices;
- 25.) Tech industry black-list coordination within the National Venture Capital Association;
- 26.) HUD and USDA mortgage rights blockades;
- 27.) DNS and IP routing manipulation to prevent victims from selling anything online;
- 28.) Digital attacks designed to put horrific fake news about target in front of 7.5 billion people...

and more spy agency type "dirty tricks" that cost the victims their lives, life savings, income and other disabling losses...

Musk has business, social, investor and political partnerships with Harry Reid, Dianne Feinstein, Barack Obama, Joe Biden, Nancy Pelosi and the heads of the Department of Energy. Any one of those people can make a single phobe call and make any of those attacks, in the list above, happen with ease.

Dianne Feinstein's and Nancy Pelosi's staff are on public record hiring dirty tricks from: *The Sixteen Thirty Fund*, *Tides Advocacy*, *Emerson Collective*, *American Bridge*, *Think Progress*, *New America Foundation*, *Future Forward*, *Priorities USA Action*, *Arabella Advisors*, *New Venture Fund*, *Windward Fund*, *Hopewell Fund*, *Democracy Alliance*, *MoveOn.org*, *People's Action Power*, [\*Cardinal & Pine\*](#); *Pacronym*, *Acronym*; [\*The Americano\*](#); [\*Investing in US\*](#); *Shadow Inc*; *Courier Newsroom*; *IN-Q-Tel*; *Gawker Media*; *Jalopnik*; *Gizmodo Media*; *K2 Intelligence*; *WikiStrat*; *Podesta Group*; *Fusion GPS*; *Google*; *YouTube*; *Alphabet*; *Facebook*; *Twitter*; *Think Progress*; *Media Matters*); *Black Cube*; *Correct The Record*; *Orbis Business Intelligence*, *Undercover Global Ltd*; *Stratfor*; *Jigsaw*; *ShareBlue/Acronym*; *Versa LLC*; *American Ledger*; *Supermajority News*; *New Venture Fund*; *Sixteen Thirty Fund*; *Cambridge Analytica*; *Sid Blumenthal*; [\*States Newsroom\*](#); *Hopewell Fund*; *Open Society.*; *David Brock*; *AmpliFire News*; *American Bridge*; *Plouffe Consulting*; *Pantsuit Nation*; *MotiveAI*; *American Bridge 21st Century Foundation*; *Priorities USA*; *PR Firm Sunshine Sachs*; *The American Independent Foundation*; *Covington and Burling*; *Buzzfeed*; [\*The American Independent\*](#); *Perkins Coie*; *Secondary Infektion*; *Wilson Sonsini* and thousands more to run hit-jobs, character assassinations, dirty tricks and economic reprisal attacks on any applicants who reported the crimes. Each of those companies are now under federal and civil investigation. Most of these businesses offer the service of manipulating elections and news coverage in order to steer stock market profits into the pockets of billionaire clients at the expense of the taxpayer and Democracy. They hide their transactions via money-laundering. All of these services, when focused on individual citizens, are lethal.

**United States Patent**  
Description

**1. FIELD OF INVENTION**  
This invention relates to the field of vehicle safety, and more particularly to the field of vehicle safety systems.

**2. BACKGROUND**  
In the past, vehicle safety has been a major concern of the automotive industry. Various safety features have been developed to protect the occupants of a vehicle in the event of a collision. These features include seat belts, air bags, and crumple zones. However, there is still a need for improved safety systems.

**3. SUMMARY**  
The present invention provides a vehicle safety system that includes a sensor for detecting a collision and a control system for activating a safety feature in response to the detection of a collision.

**4. BRIEF DESCRIPTION OF THE DRAWINGS**  
FIG. 1 is a block diagram of a vehicle safety system according to the present invention.

**5. DETAILED DESCRIPTION**  
The present invention is a vehicle safety system that includes a sensor for detecting a collision and a control system for activating a safety feature in response to the detection of a collision. The sensor is configured to detect a collision between the vehicle and an object. The control system is configured to activate a safety feature, such as an air bag, in response to the detection of a collision.

**6. ADVANTAGES**  
The present invention provides a vehicle safety system that is simple and easy to use. The system is configured to detect a collision and activate a safety feature in response to the detection of a collision. This provides a high level of safety for the occupants of the vehicle.
